25 years of Excellence means . . .

Over 25 years many improvements have been made. Through these improvements we have always been striving for excellence.

Attendance has shown to be the best of any previous year. A.P. scores proved to be the best in the district. Yearbook received a *silver metal* for outstanding publications.

Football's defensive team rallied to become the best in the league. Volleyball took off to C.I.F. for another outstanding year. Waterpolo made its first year to C.I.F.

These were just a few of the many accomplishments which we strived for as we were . . .

"The important thing in the Olympic Games is not winning but taking part. The essential thing in life is not conquering but fighting well."

Barron Pierri de Coubertin, founder Modern Olympic Games

Participation, working together, giving our best, and sportsmanship are what make *Lion Pride!* Just as the purpose of the Olympics is intended not merely to give athletes an opportunity to win medals, but to bring people who come from different backgrounds an opportunity to meet and promote friendship and goodwill, W.H.S. gives us all an opportunity to learn that although we may wear different clothes, speak a variety of languages or have different customs, we are all the same and can work together. That is *Lion Pride.*

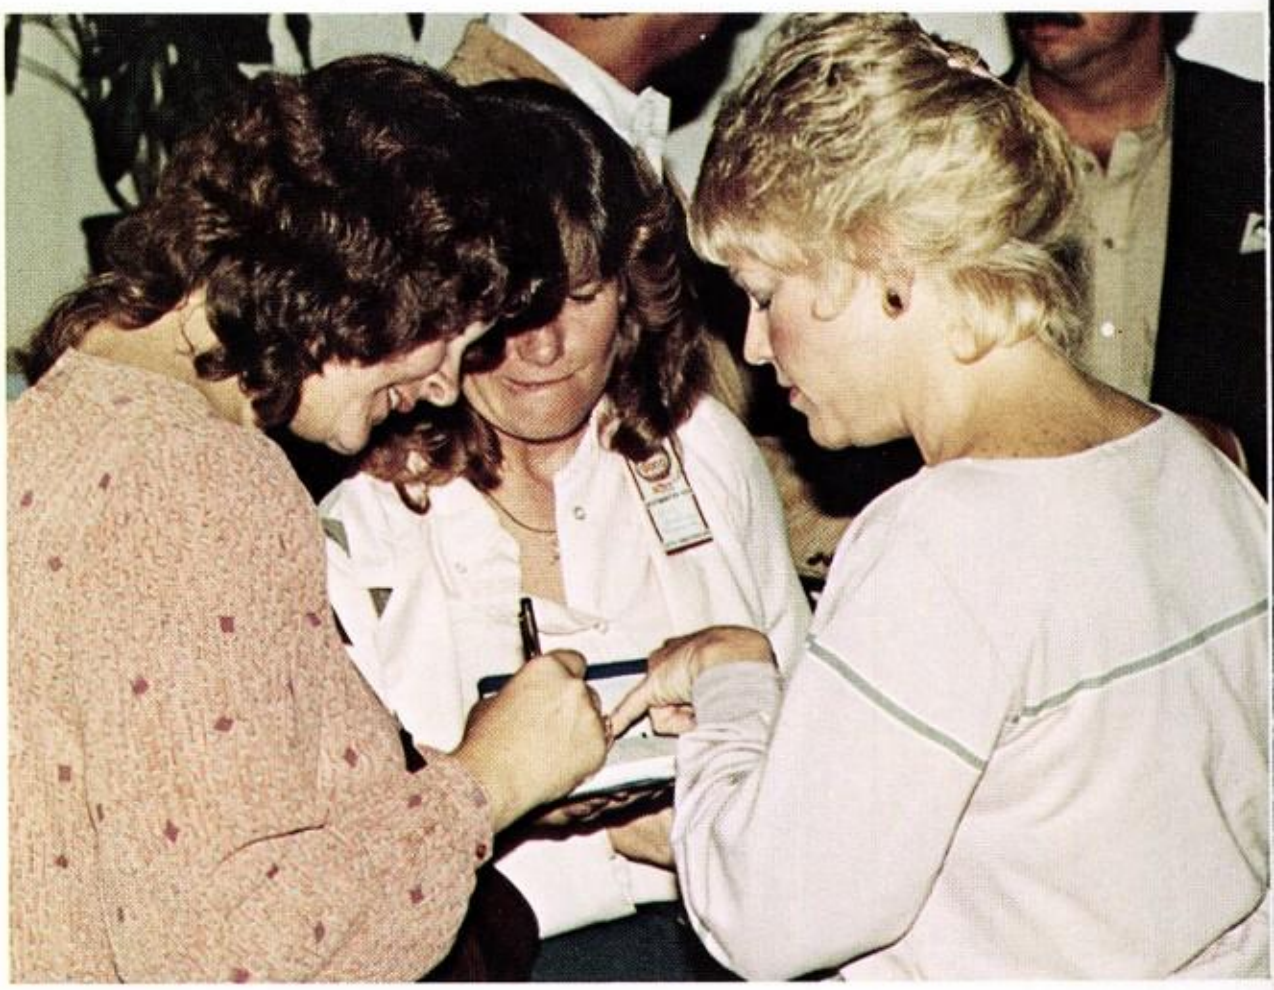
Celebrating the 25th, how sweet it was

The first graduation took place in 1958 and twenty-five years later we were celebrating our silver anniversary. The preparations for this event began last spring. Penny Loomer and her sister, Beth Loomer-Crumbley, did a lot of the work. With the help of Janet Whittenburg, the whole Crumbley family, and a few other people, the celebration drew a large crowd. The evening began at the Orange County Fair Grounds with lines of people trying to get their tickets and name tags. Once through the front door, the alumni had the opportunity to buy drink tickets. Soft drinks were $1.00 a cup full and alcohol beverages were $2.00 a shot.

Further in there was a long table that had on it various foods such as: olives, carrots, crackers, pretzels, dips, etc. And along each of the walls were booths for the different graduated classes. In these booths people sat exchanging phone numbers, signing old yearbooks, and just shooting the breeze.

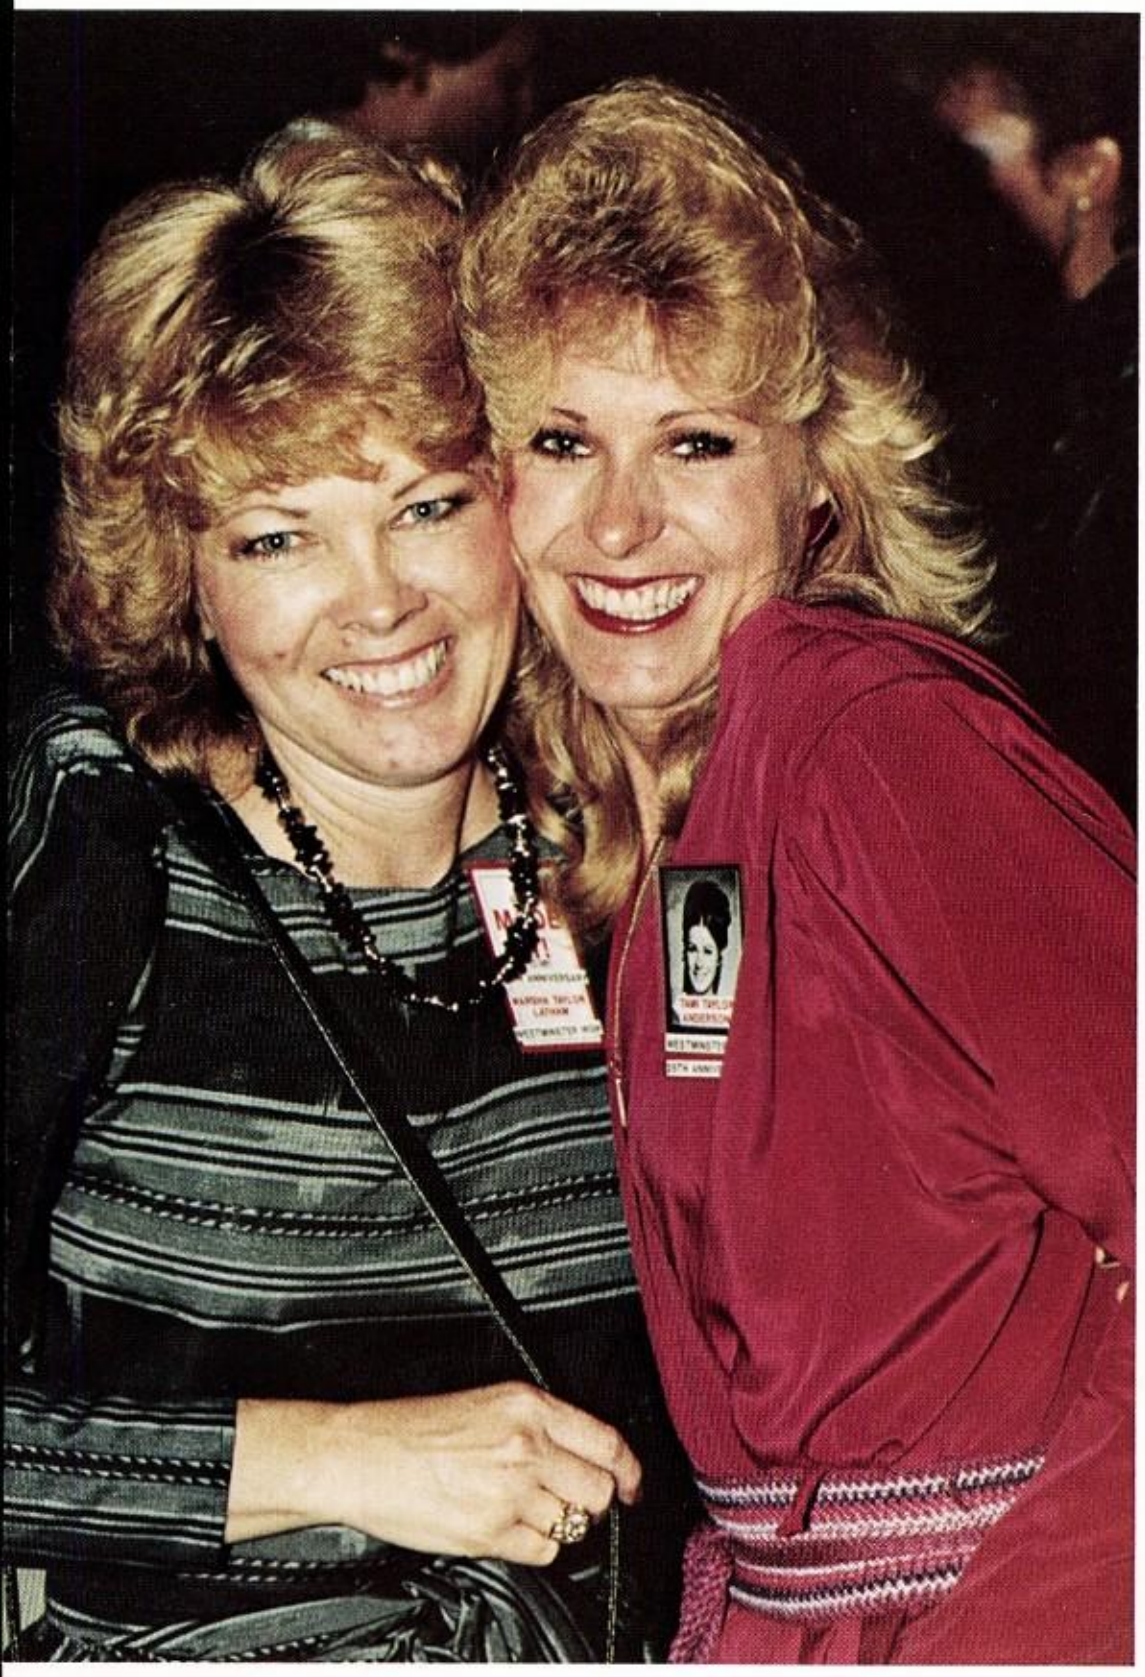
In addition to the booths, there was also a dance floor for those that did not just want to chat. Here, the D.J. ***Dance Dimensions*** played songs from the 60's, 70's, and 80's. Some of the music included: ***How Does it Feel, Billy Jean, Old Time Rock 'N' Roll,*** and ***After the Loving.*** It was during this time that people danced slow dances, fast dances, the Twist, and a few others.

At approximately 11:30 the evening concluded with a final dance, and then silence once again filled the hall.



There's a lot of catching up to do — Alumni exchange phone numbers and addresses so they can keep in touch. These 3 graduated the same year and haven't seen each other since.

The image of the school marm is gone — Olga Tanner, science instructor, takes a break from all the excitement to pose, so that Lisa O'Brien could climb through the bushes and take this picture. She was one of such educators there as: Mrs. Swenson, Mr. Bartelli, Ms. Whittenburg, and, of course, Dr. Eastwood.



Cheese — Marsha Taylor-Latham and her sister, Tami Taylor-Anderson were among the many that attended the anniversary.

Give it to me — This is the last dance before the evening came to a close. Many couples took advantage of the opportunity to dance with their spouses or people they had not seen in years. They are dancing to the beat of "Give it to me."

Ladies choice — The first dance of the evening is ladies choice and Nancy Larson-Duncan asked John Cornick to dance with her. Nancy graduated in 1968 and John in 1964.

Career Fair blossoms into big affair

In October, during an extended lunch period, the Career Fair took place under the joint efforts of the work experience office and the community at large.

A few of the professions represented were the ***Armed Services, Fire Department, Cosmetology, Automotives, Funeral Directors,*** and general businesses. Many of the subjects introduced at this fair allowed a large portion of the students to ask questions and get detailed information on many topics. The students joined in and requested information and many signed up for ***CROP.***

The fair was a success, and because of it, a lot of students were able to make extended plans for their future.

Trust me — Pam Tillery gives Tim Valenzuela a butch.

This is what I want to be — Tom makes conversation with two atentive firemen.

Future models — Two students apply to be models.

Eager to Sign Up — Guzzell Bennet signs up a student for crop.

We want you — Army Recruiter talks convincingly to students.

Gossip adds a Little Spice to life

by Kathy DeCourt

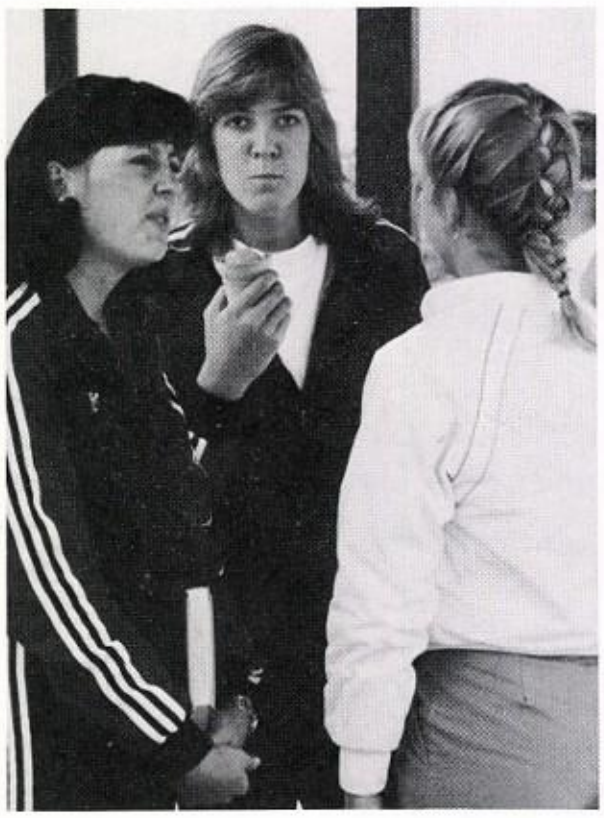
At first glance these pictures signify discussions on homework assignments, world problems, family crisis, or other situations. Upon further observation, a person discovers these are all gossip sessions.

This gossip may seem unimportant to some passersby, but many personal relationships have started during a gossip session. For example, two girls are involved in deep conversation. I adore him. The other girls leaves, and nature takes its course. Further down the walkway, you spot two football players. On closer inspection you discover that the other school's linebacker is a wimp, and a small shove will put him away.

Many gossip sessions are times to share your happiness, sadness, anger, or just to express your opinions.

Who could live without gossip? On the other hand, who would want to?

Joking during lunch; the soccer team members enjoy their time.



Look I can eat and listen at the same time! Sabrina Dennks seems to be saying.

Are you really taking the picture? Kelly Rodrigo looks at the camera, while Angela and Kristi chat.

Excuse me — Asking directions to the men's room Bill McKeague stops Brandon Jones.

Like I'm so sure! caught by surprise by photographer while in the middle of a 'heavy' gossip session.

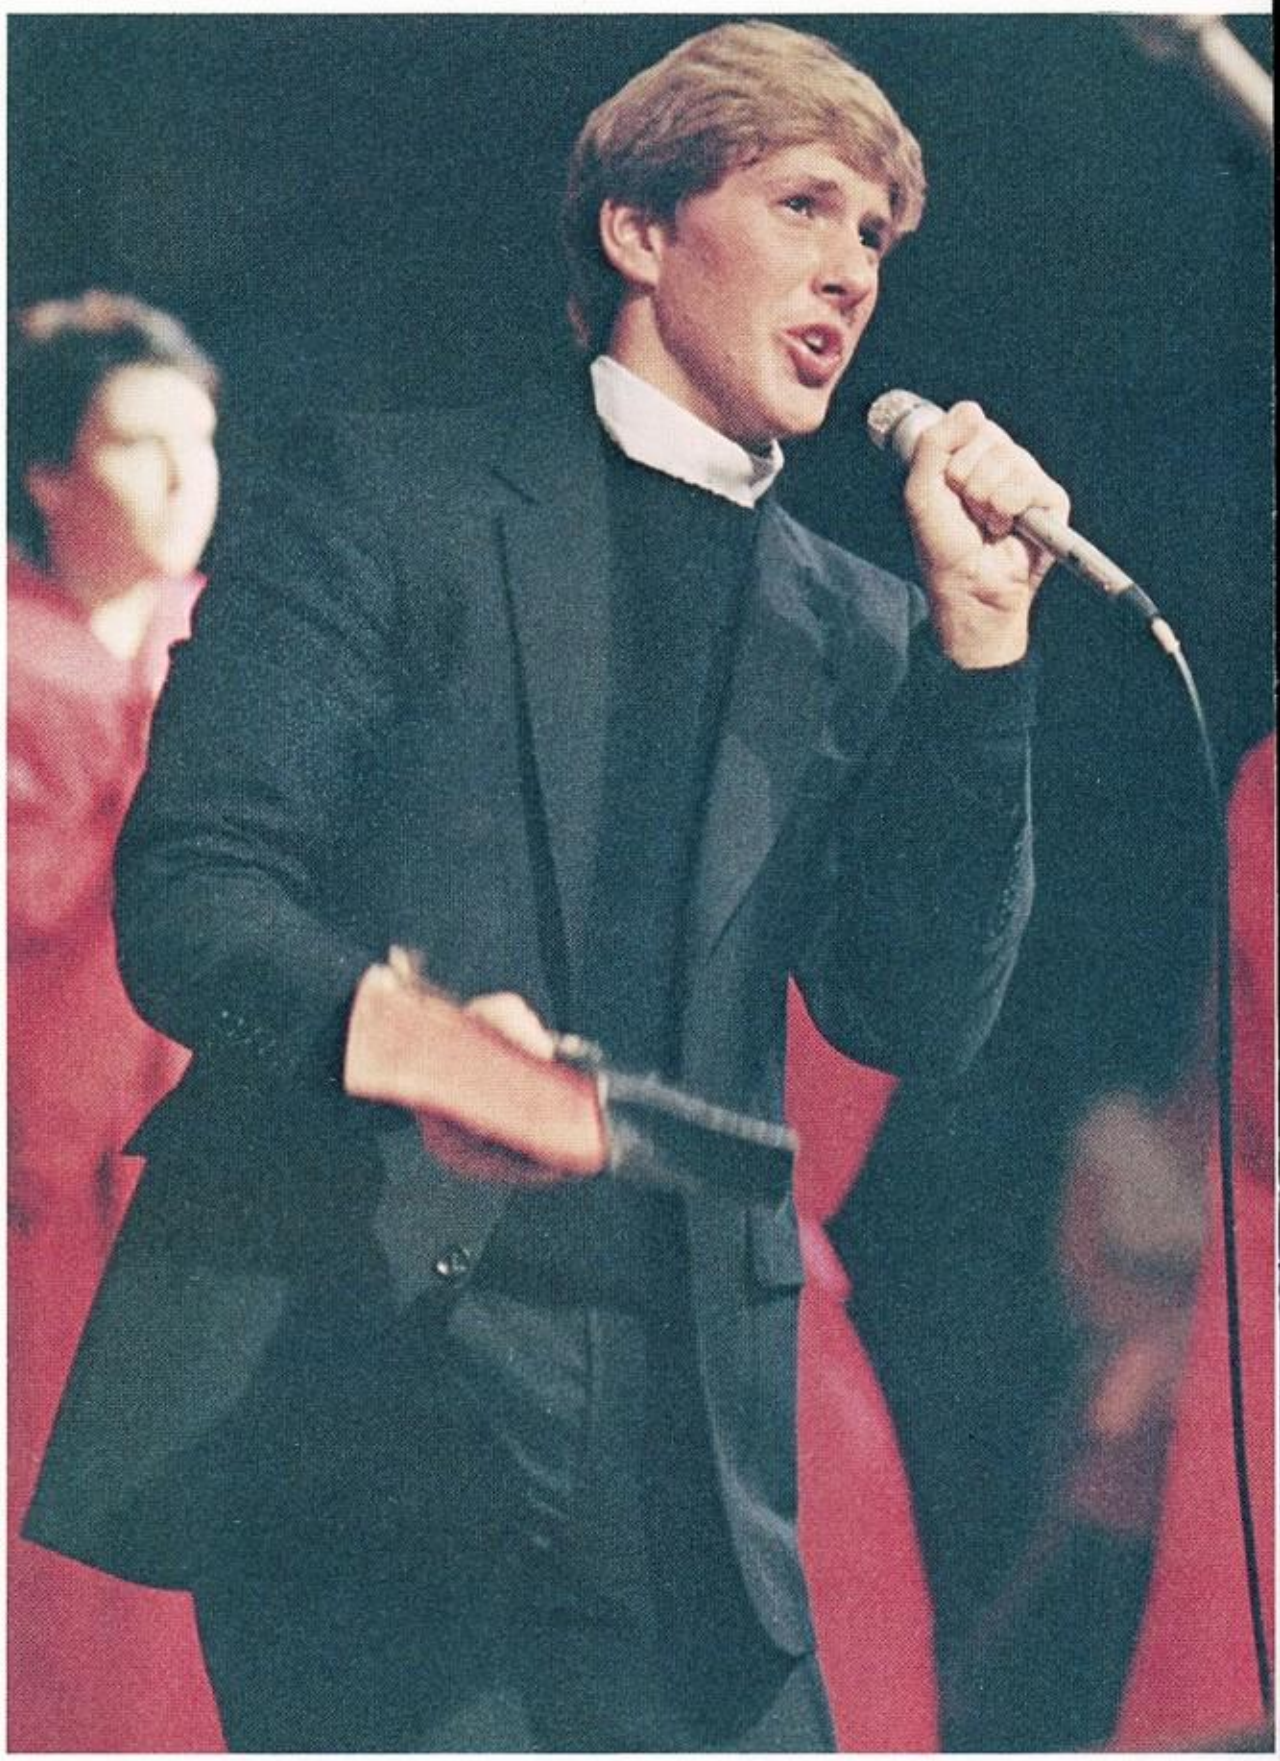
Hee Haw

Look Out Broadway! We're here

Country Cabaret, presented by the performing arts department, was an exciting show filled with music, dancing and lots of laughs. Costumed in denim, boots, and smiles, the performers had the audience clapping and stomping along with them. Drama's ***Hee Haw*** style comedy segments kept the atmosphere light. The vocal arrangements written by ***Joe Kral*** the choral director, filled the stage with good country rhythm and lots of energy. The show sold out two of its three nights. Some of the more memorable numbers were ***I See the Light*** an inspiring, exuberant gospel, ***Country Roads,*** an eight part harmonic ballad, and ***Rocky Top,*** the dynamic closer which brought down the house.



Singing minister — James Joanson performs his solo in the sold out Cabaret.

Sock Hops

Dancing the Night Away

Sock Hops were held in the gym, following most of the home football games. The D.J.'s played a variety of music, including ***New Romantic, New Wave,*** or just simple ***rock-n-roll.*** This variety of sound brought many students to the dance floor to enjoy their favorites. Usually the students danced not with one partner but as a group with many friends. The exception was the slow dances which made the evening special.

When asked what songs stood out in her mind Jessica Johnson replied, ***Planet Earth by Duran Duran*** because Claire, Tracey, Sherrie, made fools of ourselves in public acting out the song."

Seniors Go Hawaiian

The Senior Luau took place in the gym, with about 300 enthusiastic seniors. The evening started with everyone eating a Hawaiian meal while sitting on the floor. The show commenced with a young boy coming out and blowing a giant shell horn, a traditional starter of all Hawaiian events. Then came the dancers as entertainment for the enjoyment of everyone. To keep the seniors in good spirits the following seniors showed everyone how to dance in grass skirts: ***Mackay Galoia, Mike Gordon, Ken Hammond, Kevin Kappen*** and ***Ken Mout.*** The audience laughed out loud when these beauties ***did their thing.***

Before entering the Luau, each senior voted for the Senior Luau King, ***Phil Carreon,*** and Queen ***Michelle Shima.*** They both appeared surprised and honored.

Surfing in the U.S.A. — Mike Glasgow shows the crowd what surfing in Hawaii is all about.

October 28, was a day with terror and laughter. The majority of students, teachers, and faculty members showed their spirit by dressing up with interesting kinds of customs. The highlight of the day was when everyone gathered at Buckingham Square for the costume judging.

rad fads

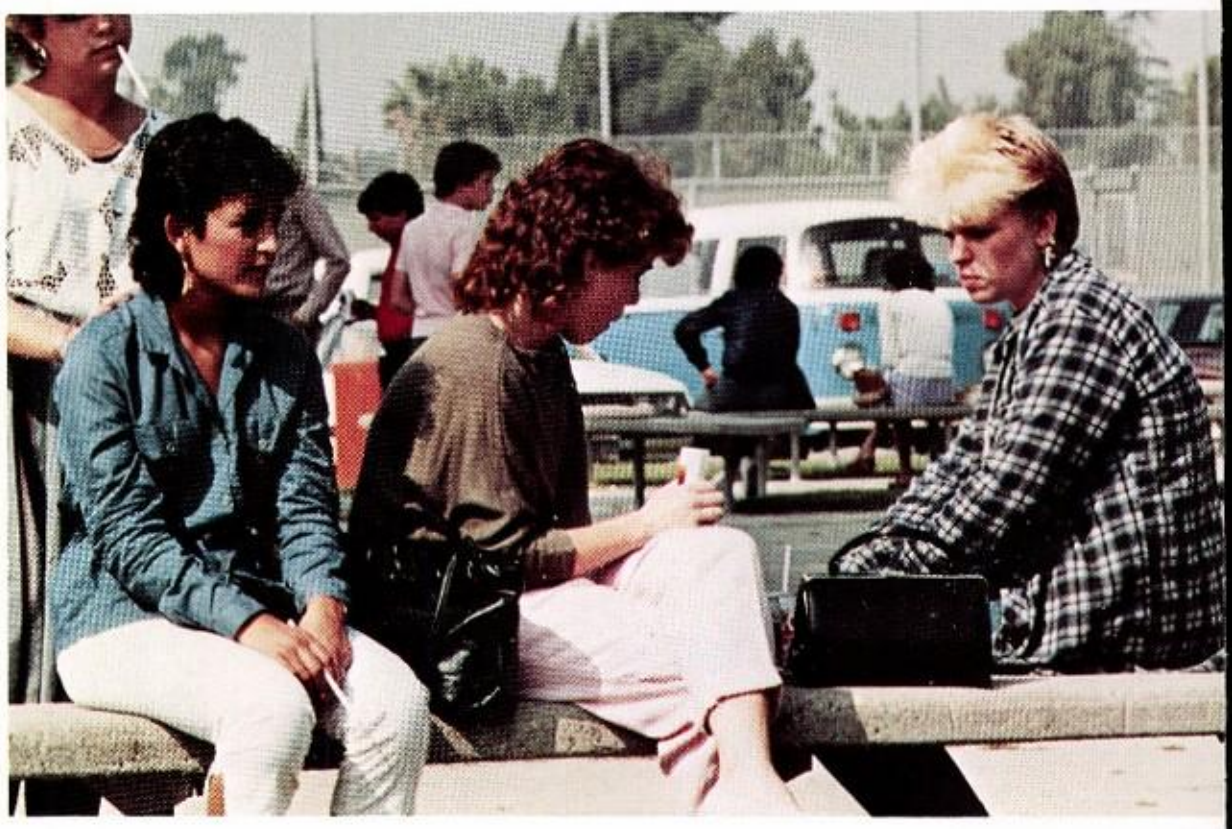
In 25 years fashions come, go, and return again

Although many changes have occurred in the fashion world in twenty five years, there is one thing that has not changed and that is the privilege for every person to express his individuality through dress. Twenty five years ago parents were aghast because teenage boys chose blue jeans, white T-shirts, white socks and loafers. The girls went from pedal pusher pants, to sailor blouses, poodle skirts, white socks and pony tails.

Today, there are many trends and styles that range from preppy to new romantic and anything in between.

The message is the same, being an individual means standing alone and saying, "This is me." In today's society, fads and fashion allow many choices. Hemlines, for instance, are the wearer's choice from mini skirt length, knee length, to below the knee, and so on down toward the ankle.

Today, upperclassmen add a touch of class to campus by sporting brand names such as ***Polo*** shirts, ***Levi's 501, Hunter's Run*** sweaters, ***Esprit*** shirts, ***Ralph Lauren*** oxford shirts, ***Sperry Topsiders,*** and ***Nina Ricci*** Perfume or ***Halston*** cologne.



Fashions for the masses include hats, pedal pushers, matching shoes, and stylish hair.

Free spirit captures all participants

Who says W.H.S. spirit has died? Certainly not the enthusiastic students who filled the stands to cheer for the athletes at the football games, water polo games, etc.; and certainly not the dedicated athletes, musicians, cheerleaders, and drill team. Each person, whether participating or observing, has played an important role in promoting spirit.
As a whole, students cheered through their victories and cried through their defeats.

Jill!

The queens add a 'touch of class'

To the surprise of many, the Homecoming festivities included not just one, but many queens. Jill Vannatta reigned officially, however, also highlighted were most of the queens from the previous 25 years of Homecomings. Then Queen Elizabeth herself added the finishing touch . Halftime of the most important game of the season started with the announcement of Queen Jill. To the amazement of nearly 5,000 spectators, including Dr. Eastwood, Mr. Crosson also announced the presence of her Majesty Queen Elizabeth II of England. "Almost everyone in the stands thought it was the real queen," said Jerry Allen, who was one of twenty who telephoned the Register on Saturday to ask why the newspaper didn't cover the Queen's appearance. The imitation queen was actress Rose Carr. On the pre-game show the parade consisted of the cheerleaders, drill team, band and the participation of all the graduated classes since 1959. The band played tunes from the sixties, seventies and eighties. The football team contributed with the most exciting game of the season. They proudly defeated the Hunington Beach Oilers 20 to 13. The Homecoming parade ended with Terry Williams and Helen Sample, the first Homecoming Queen (1959), sharing the float.

Court creamed for a touch of class

The glamour and excitement of the ***Touch of Class*** was brought out in this year's homecoming week activities.

The highlight of the lunchtime activities came with the creaming of the court. Lynn Hofer, Sharon Kirihara, Michelle Shima, Pam Tillery, and Jill Vannatta were creamed by their escorts with eggs, flour, honey, mayonnaise, oatmeal and lemon juice. It was applied to the girls hair and face preparing them for the ***classy*** look.

The events of Homecoming ended with the defeat of the football game against Huntington Beach, Oilers. Jill Vannatta was announced 1984 Homecoming Queen as the parachutists descended from the sky.

Masquerade Ball proves successful

by Sylvia Hunter

On October 22, 1983, the sophomore class sponsored the "Masquerade Ball" which was held in the cafeteria from 8-11 pm. To attend the dance one had to purchase their tickets before hand and come in costume.

Jody Valles, President of the Sophomore Class, explains why they changed it to the "Masquerade Ball" as opposed to the "Peasant's Prom."

"I think the idea was we wanted it to sound more appealing and fun for students so we switched the name."

Valles also speaks of the outcome of the dance, "Overall I think it was pretty much of a success. There was a good turnout." The success of the dance, according to Valles, was mainly because of the help she received from her committee members, Mrs. Smith, and especially Carmen Christiansen, who was noted by Valles as the one who gave her "the greatest help."

There was a costume contest. The winners were: Art Sanches for Best Male Costume, Katie Douhitt, Best Female; Lisa Gallo and Jim Satterfield, Best Couple. The prizes they received were twenty dollars worth of pictures taken of themselves at the dance.

It was estimated that between 120 and 130 people were present.

going places

Moving on wheels

The parking lot was one of the most important places on campus. Students met their friends, socialized, and most importantly, showed off their cars. Some students parents bought them a car. Terry Cole received a brand new Mazda RX-7 for his sixteenth birthday. "I thank my Ma and Pa every day for it." Others were not so lucky. DeAnn Sandes bought her own car with the money she earned working as a waitress. "I am proud of the fact that I bought my own car, means more to me than if it were a gift."

Other students who were not old enough to drive walked or rode their bikes to school. For the gas conscious, a moped or vespa was the answer. Jeff Rieve thinks "They should have special spaces for mopeds."

Is it really yours Mike? Mike Danna, Mark Garner and Matt Eddy chat before class.

The latest way to get around — many scooters are seen at parking lot.

Smiling pretty — James Kohler sits on his scooter during lunch.

Nice looking outfit! Many students are seen walking before or after school.

License plates say it all — Many cars with special plates are seen at the parking lot.

The Batmobile will fly tonight — Captain Kappen's built an excuse for being late.

memories

A night far from the ordinary

The Christmas formal was held at the Costa Mesa Country Club, on December 9th. The theme 'Misty Memories' provided the excitement and brought couples into the yuletide spirit.

The excitement reached its peak when the coronation court, McKay Galoia, Kevin Kappen, Kenny Mount, Brad Weaver and Brandon Jones were presented. For a moment there was a lot of suspense, but shortly the suspense was over and McKay Galoia was crowned King. The couples then shared the spotlight dance, with the fantastic music played by the group Scandal.

When Kevin Kappen was asked how did he like the dance this was his response: I enjoyed myself immensely, it was one of the most intriguing dances since I've been in W.H.S.! "I believe my comrades agree with me!"

Through your eyes only — Sam Shalleck has only eyes for Joan Bell.

What a couple!! Kenny Mount and Christy Regos dance the night away.

Enjoying the evening, Jeff Mooney and Angela Kapp share an intimate joke.

Renaissance Feast affair fit for kings

Due to the extravagant costumes, authentic music and poetry from the Renaissance period, and many hours of work from all who participated, the Renaissance Feast was once again a smashing hit for the year of 1983. While the second night was the best, on both nights the audience enjoyed the comedy of the festers, the acting and the great music. Led by Ms. Stevens and Mr. Kral, many of the actors felt that this year was the best so far and were still really enthusiastic about the Renaissance Feast.

Here ye are your majesty — Jennife Kiolas serves as a servant for her royalties.

love

Everyone needs love and affection

Romance at campus has changed dramatically in the last twenty five years. There was romance at campus, but the couples didn't show their affection openly. Nowadays, teenagers are more open. People were asked what they think about romance at campus and their response was:

"It doesn't bother me unless it gets out of hand." S.N.

"Romance at school it's great! But I hope that they wouldn't get carried away showing their affection." K.C.

"I feel like I am at an "R" rated movie just walking to the cafeteria." L.S.

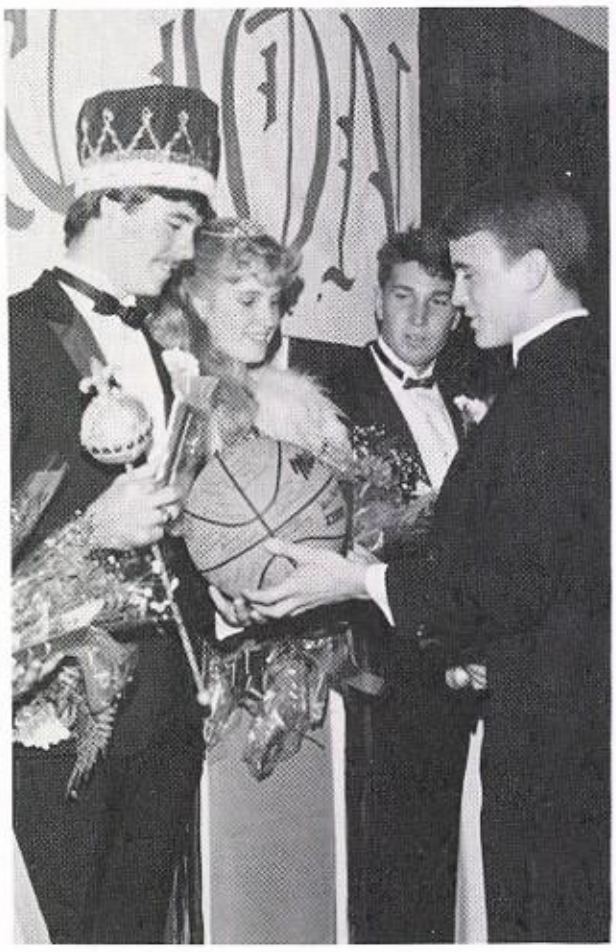
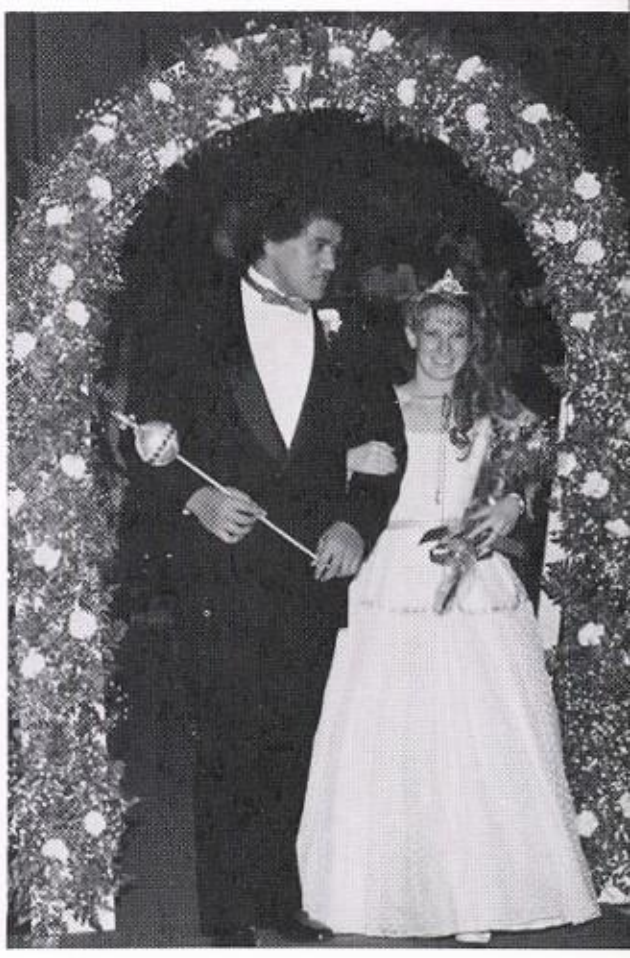
January 13 was an exciting evening for all the candidates of the coronation court. And, escorted by their mothers were: Tim Hansen, Roger Gonzales, James Kohler, Phil Carreon and Jim Gomard. The sounds of the drum started . . . the envelope please . . . Ladies and Gentlemen we proudly announce Lynne McDaniel and Tim Hansen as our Coronation King and Queen.

Here is what Lynne McDaniel had to say about her exciting week leading up to her triumph as queen.

"Coronation 1984 was really a lot of fun for me. The week started off with being kidnapped at 4:00 a.m. The week was filled with the creaming of the court, court games, and the pie auction. The creaming didn't feel too great, but it was still a lot of fun. The actual night of coronation was very nerve-racking. It was really exciting when I had heard my name called for queen. I had a great week and I made a lot of friends from the court. It was really an exciting experience."



A basketball for your majesty — Kevin Kappen proudly presenting to the Queen Lynne McDaniel and King Tim Hansen two signed basketballs.



Looking as smashing as last year, are King Tal Tamamasui and Queen Patrice Rock.

Sweethearts dance to On the Wings of Love

The Valentine's dance was held at Knotts Berry Farm on February 24. The theme was On the Wings of Love, and the Cloud 9 Ballroom provided the perfect atmosphere for this special occasion.

Dancing the night away, the students enjoyed many of their favorite songs, pausing from time to time to watch videos overhead, like Michael Jackson's Thriller.

The climax of the evening was the announcement of the royal couples. These four couples were chosen from the senior, junior, sophomore and freshmen classes. There was a king and queen named from the senior class and a prince and princess from each underclass.

Working Hard Reaps Academic Success

The creation of a new organization brought into being the *Advanced Placement (A.P.) club.* This club was similar to that of *California Scholarship Federation (C.S.F.)* in that it was for academically inclined students. *CSF* membership required at least a 3.4 grade point average (GPA), no Ds or Fs, and to take courses only *CSF* approved. *AP* membership required a student to take at least 2 honors courses, or 1 or more AP courses, and have a minimum GPA of 3.25.

Both clubs worked hard to earn money for their special activities. *CSF,* for instance, sold candy in order to award college scholarships to its members. Also keeping academics in mind, the *AP* club sold popcorn, candy, and Valentine grams so that they would be able to ease the financial burden of advanced placement examinations for their members. In the past some students have taken as many as 3 or more of these costly exams.

In addition to encouraging a rigorous academic program, *CSF* and *AP* clubs have taken field trips to UCLA and whale watching, and to the USC science fair and lazarium, respectively.

Finally, after completing 5 semesters as a *CSF* member, 1 being in the senior year and not including the freshman year, members graduate with special gold tassels and the honor of being a Sealbearer. With an honor such as this and just qualifying to take an advanced placement examination showed the hard work that went into achieving academic success.

Preparing for a Spanish exam helps Suzie Tran and Andrea Schuck to better understand the language. These students are completing their fourth year of Spanish which many students never do.

Community Work Serves its Purpose

Volunteers for community and campus service were far from few. At least three different clubs had devoted their time and efforts to helping the community and sponsoring social activities. These clubs included ***Interact, Key, and "S" club*** (Teps recently changed its name because they were adopted by the Soroptimus Club of Westminster).

These students numbered approximately one hundred and the number appeared to be increasing annually. However, ***Interact's*** constitution limited its size and the club was already near capacity. According to Interact advisors, ***Mrs. Carroll and Mrs. Iverson,*** "these students are under exemplary behavior wherever they go" and they go everywhere.

As do ***Key and "S" Club, Interact*** had special services to help the community and the campus. For example, they visited convalescent homes, helped minority groups, and were the adopted parents of a spider monkey at the Santa Ana Zoo to name a few. As for school services, Interact took first place at the District Rotary Convention held last year in Las Vegas, Nevada.

Key and "S" Club, too, helped the community. For instance, ***"S" Club*** sponsored five service activities a month and ***Key*** Club had a jog-a-thon and raised $500.00.

For these three service oriented clubs, ***Interact, Key, and "S" Club,*** their rewards lie in the gratification that serving others brings.

Mecha, Gema, What's the Difference?

The reaction of most students when asked about *MECHA* or *GEMA* was, "What are those?" or "What's the difference?"

In short *MECHA,* of Movimiento Estudiantil Chicano Activo, is for the students of Spanish background whose parents came to the United States from Latin America. On the other hand, *GEMA,* Grupo Estudiantil Mexicano Activo, was for every hispanic from Latin America who spoke Spanish.

However, *GEMA* and *MECHA* did have some activities in common. For example, *MECHA* had numerous parties with other *MECHA* groups from different schools. Both clubs also had fundraisers. *MECHA* used these funds for a year end dance and for scholarships. *GEMA* Kept its members active in customs of their ancestrial homelands. Both provided their members with a spirit of unity, activity, and help the members to achieve more academically.

Actions Speak Louder Than Words

Many clubs had common interests and presented the same idea in different ways. For example, the ***CARE*** and ***VIETNAMESE*** clubs basically tried to strengthen relationships with students of different ethnic backgrounds.

They accomplished this through a variety of ways. ***CARE*** invited guest speakers to talk about subjects ranging from the problems in South Africa to the shortcomings in El Salvador. The ***VIETNAMESE*** club attracted students by building up their sport teams. At times they competed against teams from different schools. In this way they were able to meet new people and interact with the different ethnic groups.

While the ***VIETNAMESE*** club was mainly composed of those from the same race, the ***CARE*** club was open to those of any race. They soon came to represent the school as a whole in that students from almost every race on campus had become involved with ***CARE***.

Ethnic values were not the only affairs these groups showed concern. They also held social functions where the members could get together and just have a good time. One popular idea was to have a Christmas party while another was to have a banquet that was usually held at the end of the year.

In so much as these two groups have shown their willingness to socially and ethnically interact, they have also shown us the importance of understanding the different races of students on campus.

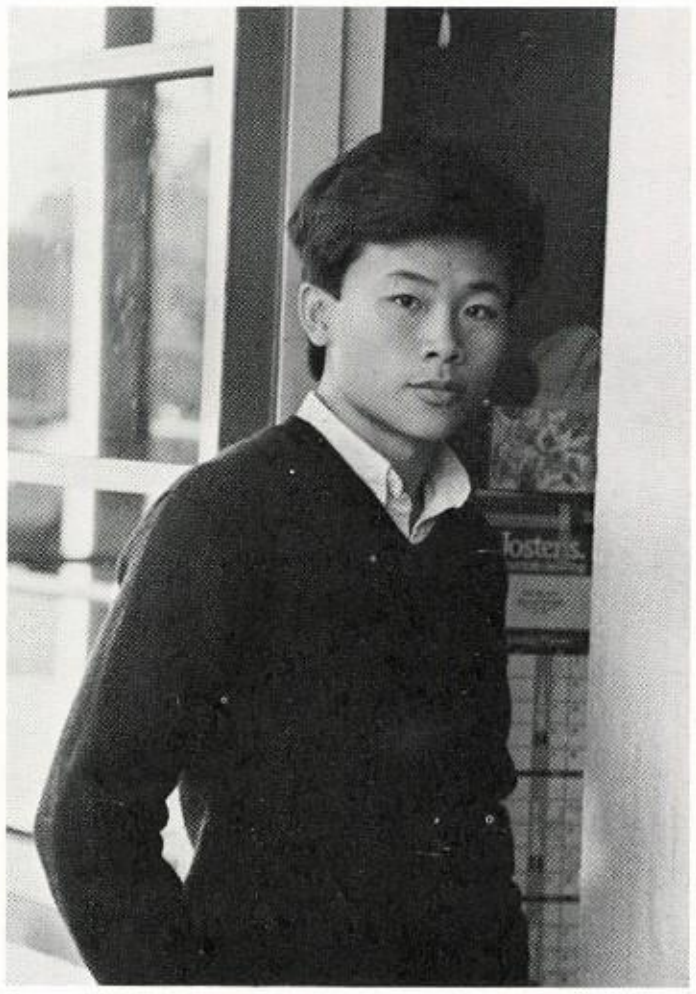
On his way to a meeting, Chi Mach waits patiently for the photographer to take the picture. Chi is one of many students that belongs to the Vietnamese club and who helps to express their culture. One way this is accomplished is during Internation Week when they sell different kinds of Vietnamese food.



Preparing for a Christmas party is not an easy task so Mrs. McCalester had Ai Nguyen and May Yang help her to decide what to do. The party was held at school in Mrs. McCalester's room during lunch. In addition to having all kinds of foods to eat, they also asked Mrs. Nguyen to join them.

Social Activities Provide Entertainment

Language clubs mainly provided a social outlet for those united in the common interest of French and Latin culture through the languages. With the ***Latin*** club it was a little bit different.

In addition to the social outlet, they also did philanthropic work. For example, they gave foreign language scholarships to those members who will study a foreign language in college, they donated money to the United Fund, Close-up and Orangewood, to name a few.

The club also planned field trips every other year to such places as the J. Paul Getty Museum. In addition to the field trips they also had the annual end of the year Roman Banquet. "Particularly I like observing students in a relaxed, social atmosphere where they are planning enjoyable activities," said Mrs. Dorman.

The ***French*** club, on the other hand, planned such things as a trip to Catalina, parties, and in the past, some French movies. To raise money for these activities, they sold French food during International Week and they also sold candy.

Clubs and Newspaper Go Hand in Hand

Reaching out to all students with interesting articles was one way the ***newspaper*** staff attracted attention. The ***Spanish*** club helped them to attract students' attention by providing activities for the staff to write about.

For example, ***Spanish*** club's annual Christmas party was the making of an interesting article. It was held at Los Castillos restaurant. The party provided a social atmosphere for Del Pickney to try and take pictures for the yearbook.

In addition to the Christmas party, it was a common practice for members to go down to Mrs. Swenson's (the advisor) house for other little parties and gatherings.

Furthermore, the ***newspaper*** staff found other stories to write about such as: hit movies, administrative decisions, field trips, and the like.

Learning Makes it All Worthwhile

Joining a club was a very popular idea to many people. Each joined for different reasons of which learning was the most common. Students became a part of the ***Future Farmers of America (FFA), Sign Language,*** and ***Ski*** clubs to learn basic agriculture skills, communicate with the deaf, and ski, respectively.

FFA provided students with the opportunity to raise a lamb, steer, hog, or any other farm animal they chose. To raise any farm animal required a lot of responsibility being that the end result was competition at the Orange County Fair.

Sign Language was one of the newer clubs and also required a lot of work. At meetings these members were taught new words and phrases so that, eventually, they would be able to communicate with the deaf.

The ***Ski club,*** too, required a lot of work. There were trips to be planned, expenses to meet, etc. The club annually planned a trip to Utah during Christmas vacation which offered some of the best skiing of the year.

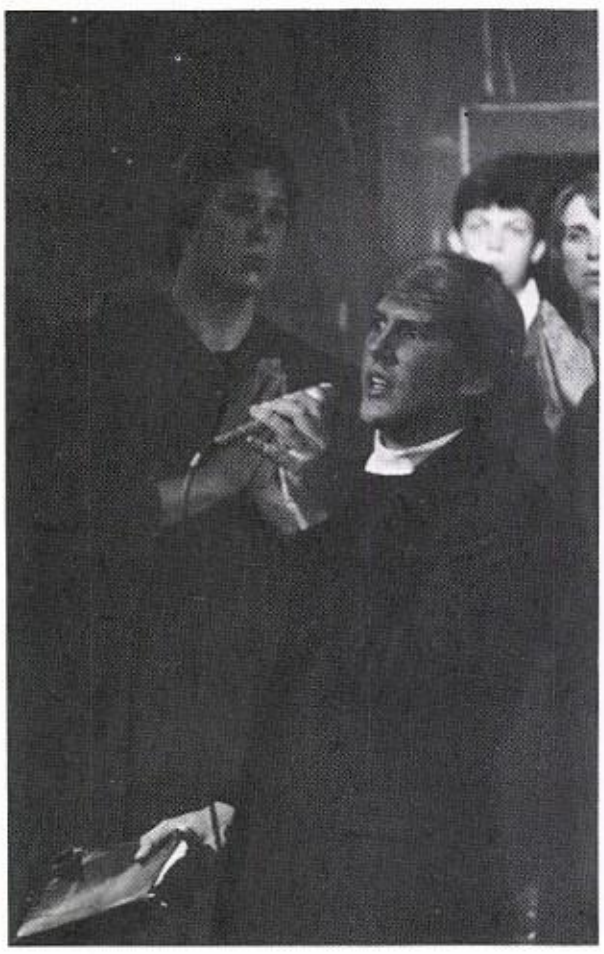
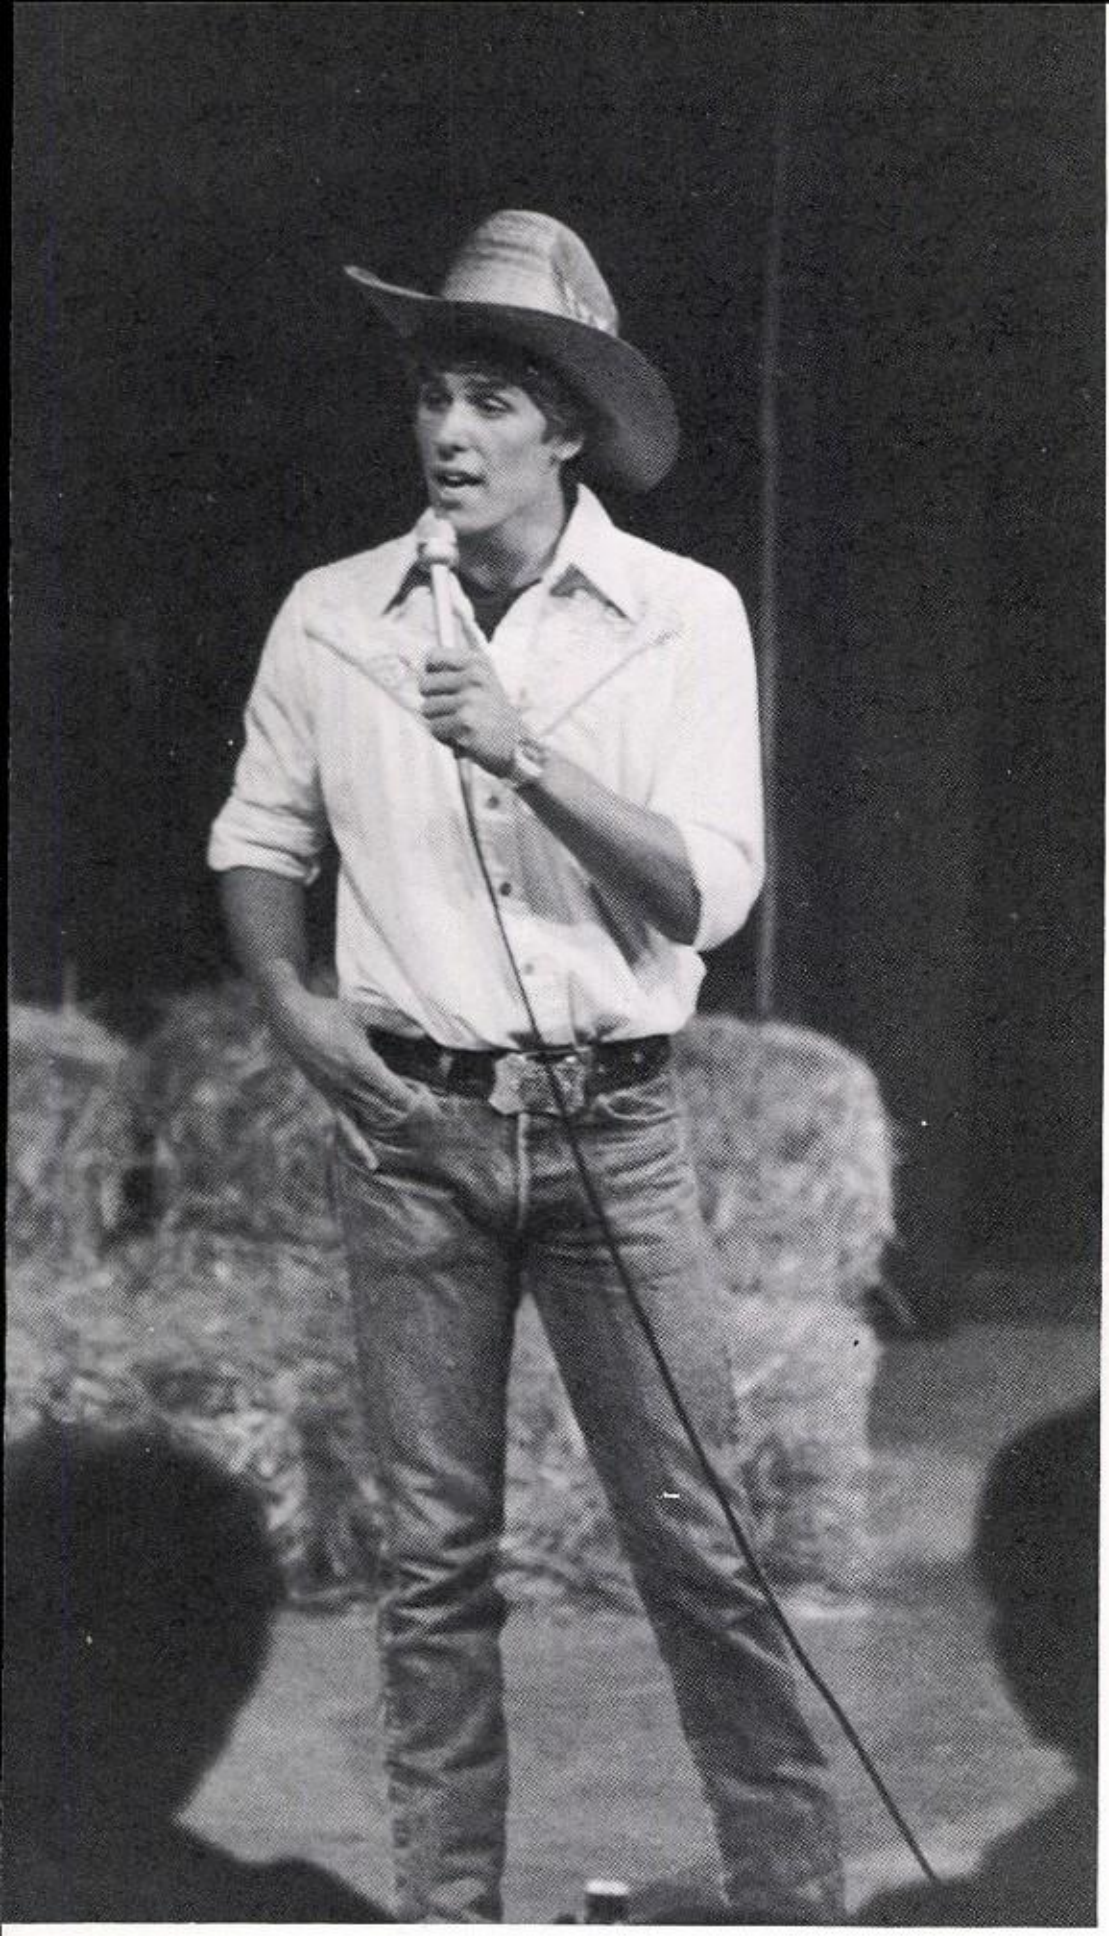
Yahooo! the grand finale of another successful play presented to us from our young actors.

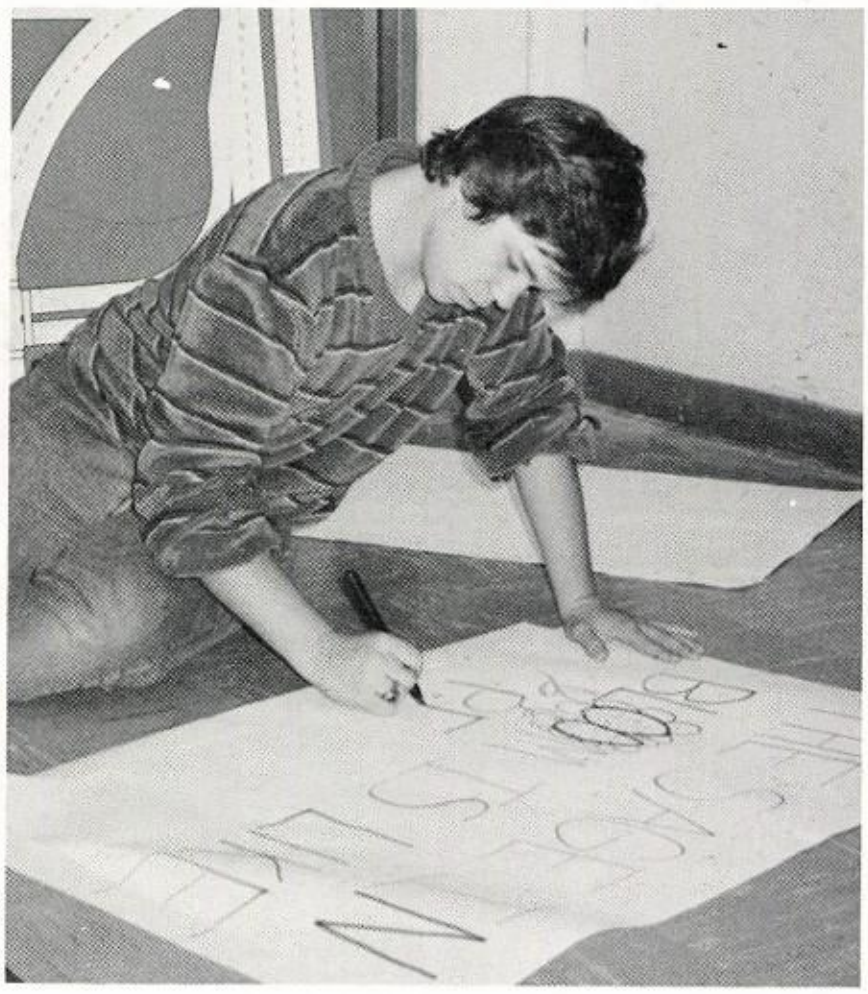
"And He shall watch over us and protect us," said Roy Brett's character, the reverend. This production takes place in the Globewest Theatre as do many other plays.

"I hope they call my bluff" thinks Diane Zimnicki during the show. Fortunately her bluff wasn't called.





Howdy pardners! Joe Sanderson sings one of the leading solos.



Acting for the Experience

Thespian and Globewest Players are active and hardworking groups. This was definitely proven throughout the school year. They had a successful year with the completion of many plays such as in October, Country Cabaret. The ratings from students on this and other productions produced by these clubs, were high.

Besides being entertainers, the people involved with Globewest/Thespians were hard working people and had jobs for which they were not paid. The ***Lion Pride*** was shown in the time they took to study their lines, set up, and other items. Yes, pride was shown and that was needed in order for a school to function and to show off the talents gained.

A man outstanding in his field, this leading actor and his co-star Jean spark the show.

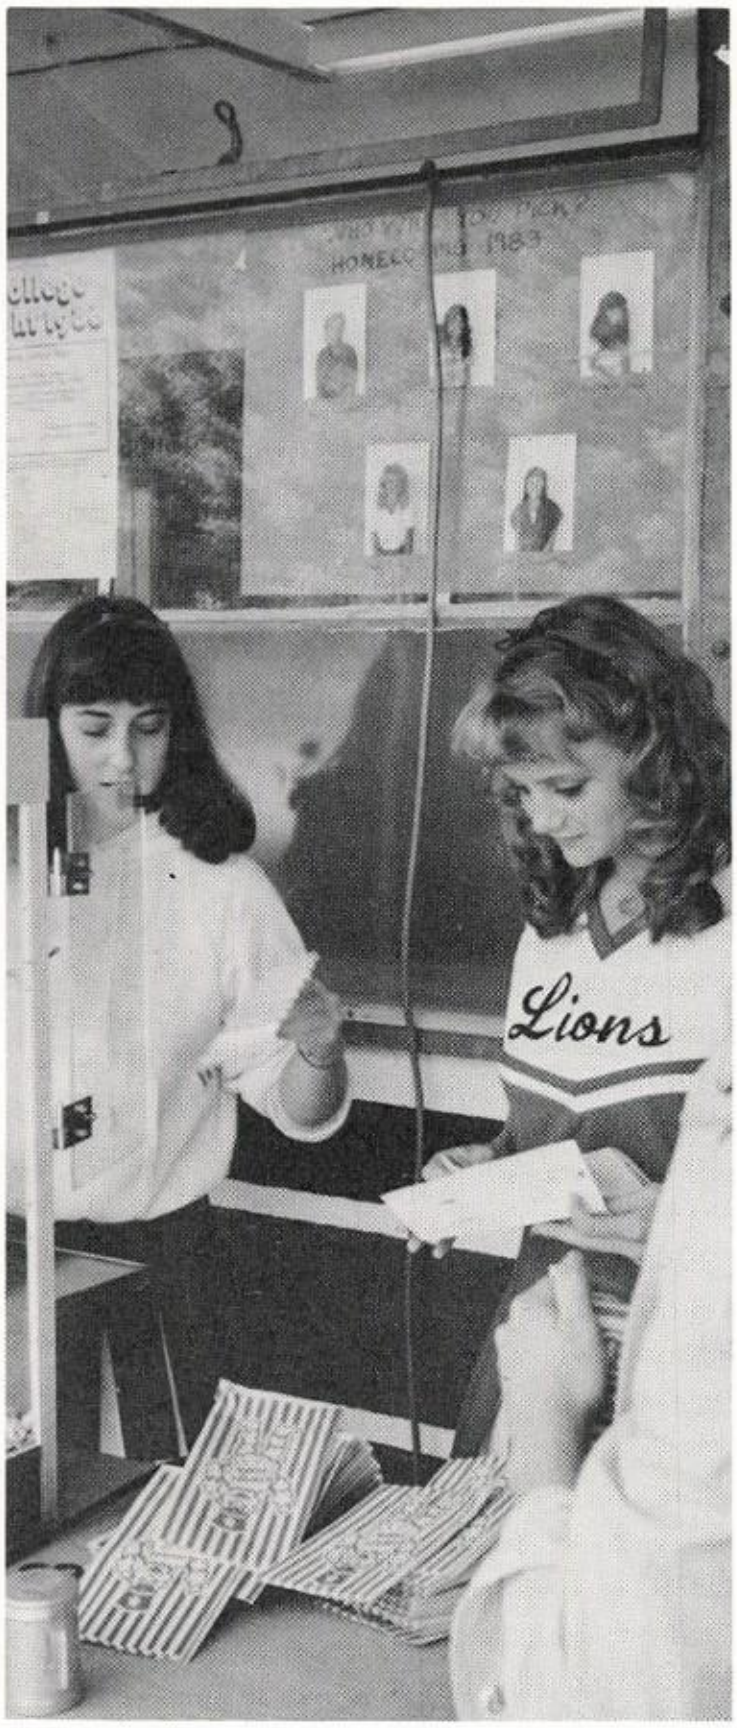
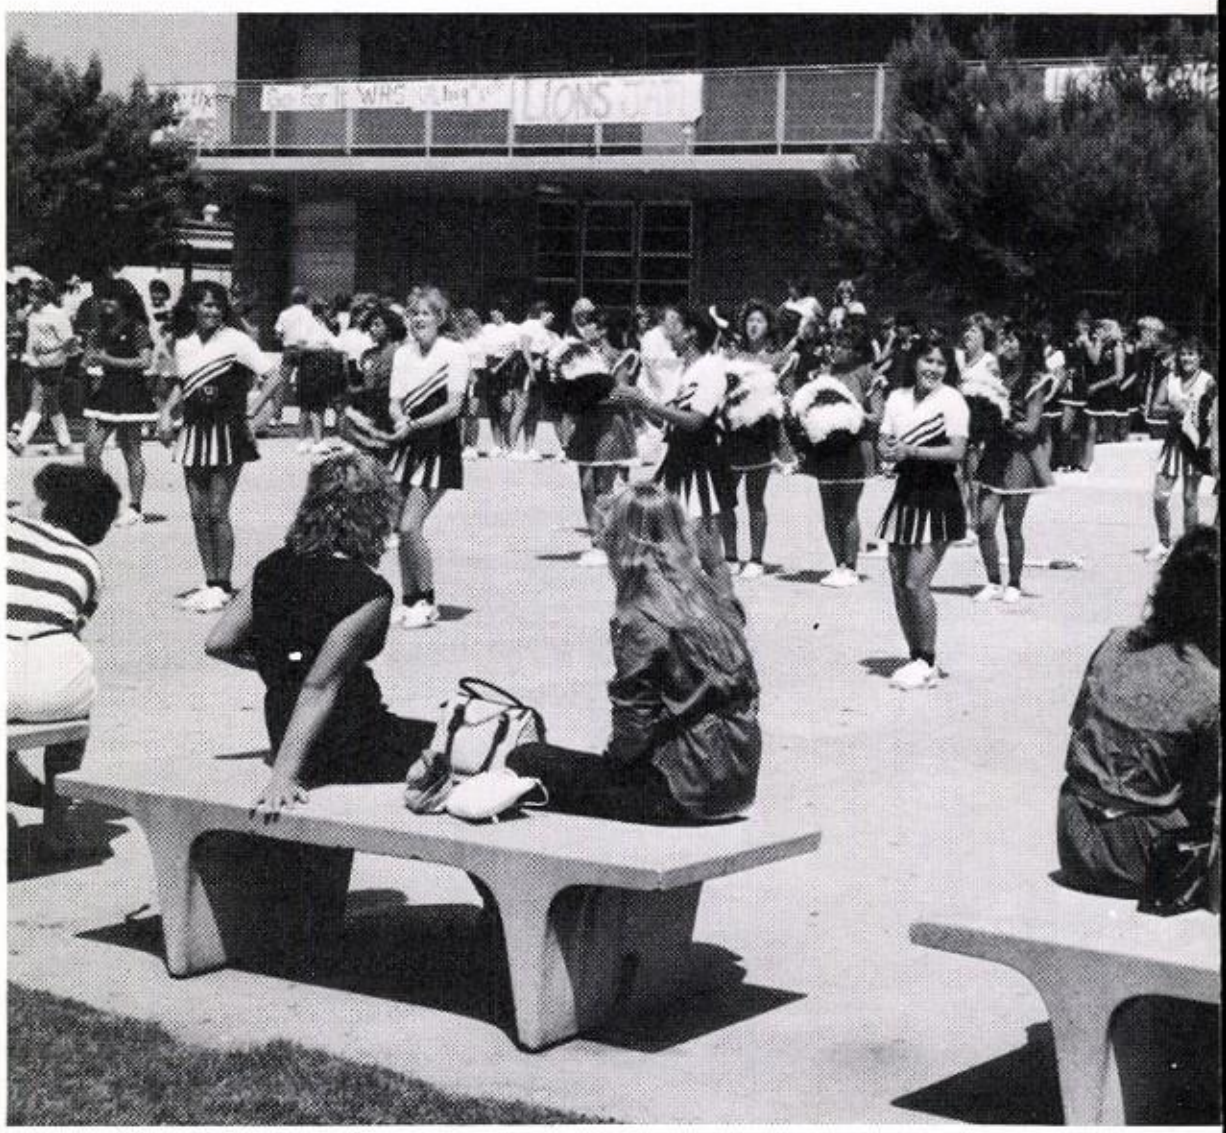
Give Us A Cheer

A cheerleaders life is fun but it is never easy. This year, on top of the usual practices, games and competitions, they went to Texas and Hawaii. To fund travel to these competitions, they were required to hold several fund-raisers including candy and popcorn sales. The fund-raisers were successful and the cheerleaders did real well in competition. Normal activities include; hanging posters and decorations for team support, fund-raisers and plain hard cheerleading and the pep rallies.





Money $$$! Stephanie Held and Patty Reints participate in one of the many pepster fundraisers.

Flags Flaunt Talent

The Lion Tall Flag team displayed much talent on the football field during halftime shows and tournament competitions. Captain Kim Rawnsley, new advisors Debbie Schoenrock and Laurie Clarkson, led the group through successful performances at Orange, El Modena, Norwalk, and Palmdale field competitions.

Over the summer, the team attended camp where they won many individual ribbons and the coveted team and spirit stick.

The Lionette Drill Team had another successful year. They captured ***first place*** awards at the ***Orange, El Modena, Norwalk,*** and ***Palmdale*** field tournaments with the highest scores ***(94)*** ever received.

Over the summer, the drill team attended a camp at the ***University of Santa Barbara*** where they won a trophy for the best home routine, one for the best team, and over 200 individual ribbons.

The Sound of Music

Admittedly, band practices are boring; however the group needs them to become excellent the band needs many hours of hard work. For example, the whole group usually has a period in his/her schedule for concert or symphonic band. In class he/she practices with everyone the four songs that must be memorized within a certain date. Then the group must be back again at the end of the day for after school rehearsal. The drill writer gives everyone their counts, for example, he tells one group at a time where to move, how many steps, what direction and so on. Then the group must figure out where it happens on the music and how many measures it will last. Everyone, including drill team and tall flags, go through the whole show from start to finish at performance levels. The show usually lasts ten minutes. This is followed by a three-hour, once-a-week practice where everyone corrects mistakes, asks questions and does run throughs over and over again. Only after hours of hard work will the group be able to become the best at all competitions they go to.

nation really is the main thing that makes the show click into place and become excellent. Being able to march, play music at the same time is about the hardest thing. One has to keep the right tempo going, plus keep in step. For example, while concentrating on playing music and getting all the right notes to blend, the person starts to move. The feet have to be moving to the beat not just in place or straight ahead; sometimes the feet are straight ahead and the body is turned, it all depends on the mood of the song.

Trust Us!

On April 13, 1983, elections were held for the upcoming officers. Of the new officers chosen, many belonged to a new party. With the slogan 'Trust Me' as a battle cry, they proposed reforms in student representation and the bringing back of tradition and pride. These new officers, combined with the experienced vets and the wise leadership of Miss Atwood, prepared to make WHS' 25th year the finest in history.

The 'New Regime', as it was known, had as its goal the uniting of the student body and restoring *WHS* to a position of respect and prominence in athletics, academics and activities.

The Frosh, Orientation Dance, was just one example of the many successful events that were instituted by the 25th House of Lords.

House of Lords members speak out on school issues:

Kenneth White — "I believe that this year has proved to be a rather positive experience for everyone involved. We've brought back the pride, now let's keep it!"

Roger Gonzales — "Tah!"

Ken Mount — "Trust me!"

Kevin Kappen — "I'm just glad I was given the opportunity to serve my school as Prime Minister this year. After seeing the pride and determination that my fellow students demonstrated throughout the term, I am convinced WHS is superior to all.

Those Sleepless Nights

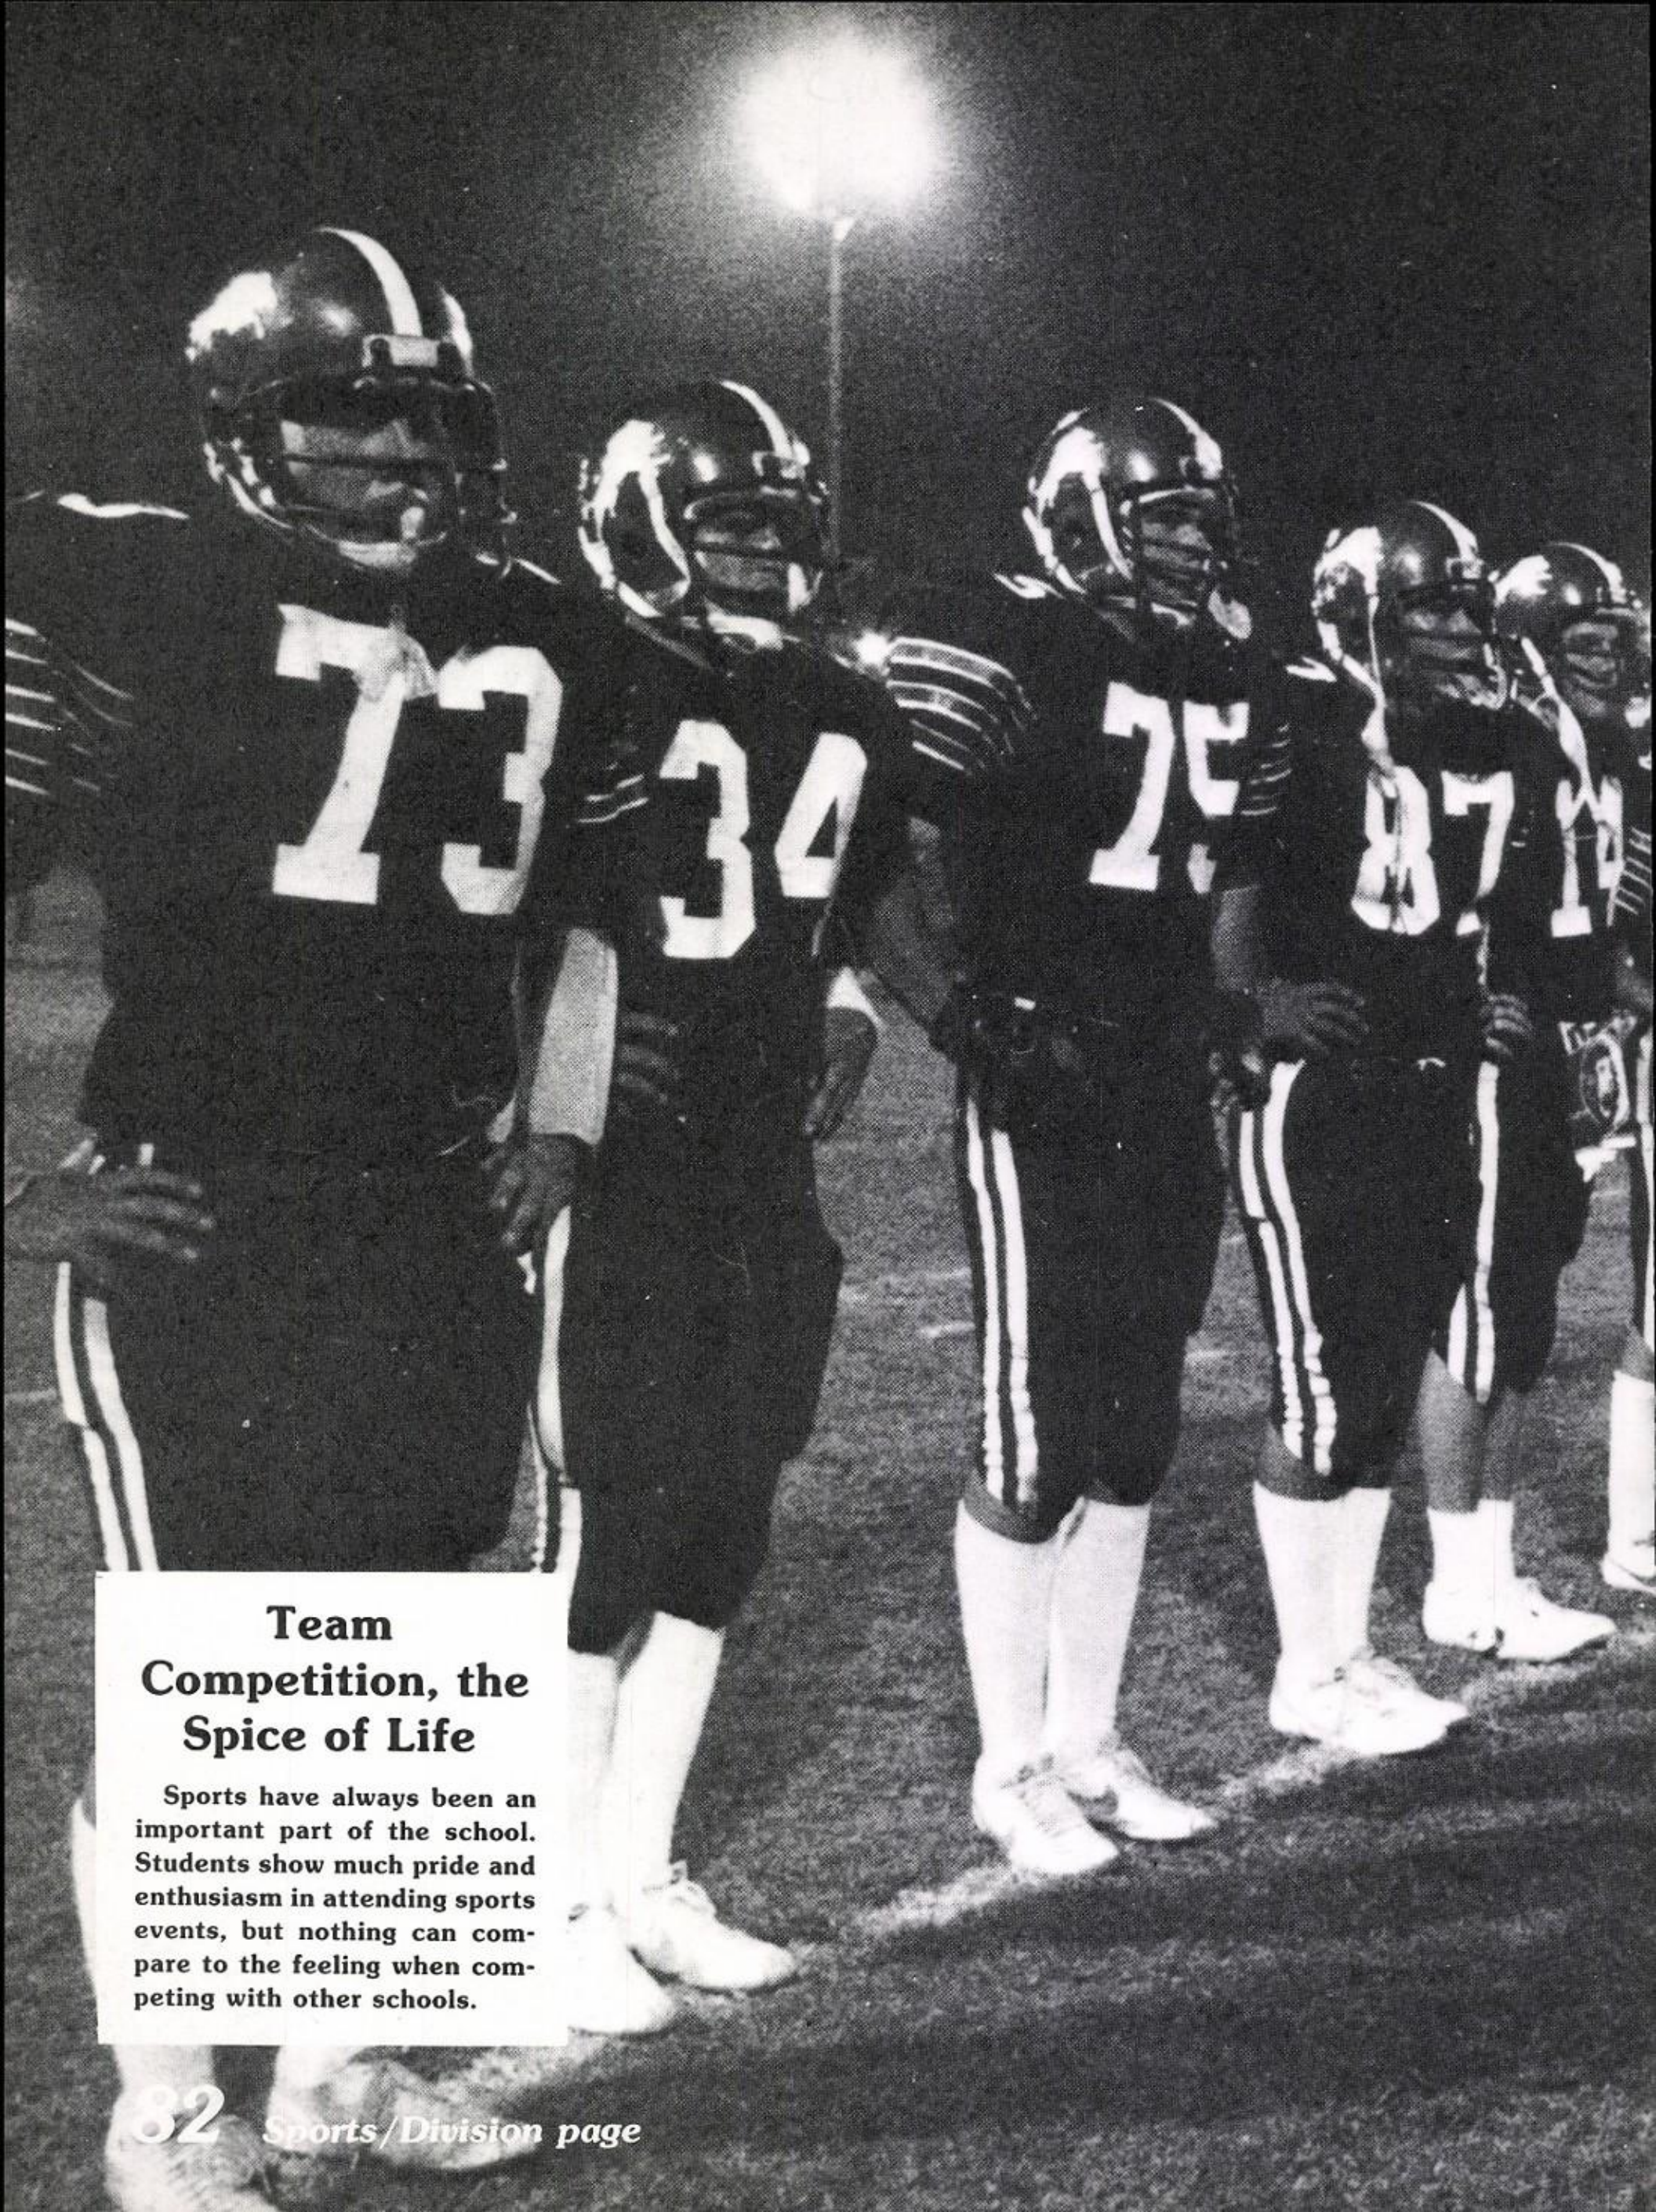
Some days at WHS were normal, but then there were other days, quite the opposite. These were the days of the weird group called the *Citadel Staff.* During the day, the Staff members were just like any other students and the adviser was just like any other teachers. With teddy bears and pencils, layouts in hand they would meet in a secluded place and dwell for the longest time.

This group had much on their shoulders and had much to do. They had to comply with student wants and try to complete the best ever, a ***superbook.*** All of this pressure went to their heads and the adviser had to be a superteacher to take all of it. "You'd have to be there to understand this kind of pressure," adds Mrs. Erdman.

Yearbook Members: Top row — Bill Tiller, Tom Seeling, Cliff Aguilera, Linda Erdman (adviser), Carolyn Hale. ***middle row*** — Karen Costa, Debbie Balcom, Shana Knepper, Donna Bishop, Mary Wagoner, Jessica Johnson. ***front row*** — Sherrie Hockett, Kristi Nutt, Kathy DeCourt, Kevin Kappen, Stephanie Minoux, Monique Mantoen, Kristen Tucker. ***seated on floor*** — Rhonda Angulo.

Leaders of the Pack — Linda Erdman, adviser; Debbie Balcom, assistant editor; Donna Bishop, editor-in-chief.

Blithering is hazardous to Karen Costa's health. While working late on one of the deadlines, Monique Mantoen, Donna Bishop, Stephanie Minoux, and Kristin Tucker decide to release some tension. Karen just happened to be at the right place at the wrong time when some yearbook members decide to have a little fun. Fortunately, for Karen, the trash can was empty and she escaped this prank unharmed.



Team Competition, the Spice of Life

Sports have always been an important part of the school. Students show much pride and enthusiasm in attending sports events, but nothing can compare to the feeling when competing with other schools.

Defense over-powers opponents

The Marina quarterback calls the play, receives the snap and backs into the pocket. The defense is tight, and he sails the ball over the heads of Bill McKeague ***and*** McKay Galoia. ***The receiver turns for the catch, but*** Brad Weaver ***snatches the ball from the air, inches from his fingers.*** Brad ***slips through stunned offensive players before he is tackled on the 43 yard line.***

Brad Weaver had four interceptions this season, and receivers ***John Spoor, Tim Valenzuela,*** and quarterback ***Tim Hanson*** combined their talents to put points on the board. The most notable attribute of varsity football, however, was its outstanding defense. Newspapers hailed it as the "best in the league." Game after game, the defensive line held some of the top scoring team to all-season lows in rushing. The biggest triumph was the mastery of Huntington Beach's star running back, ***Danny Thompson.*** He had only 59 yards (his season low) in the homecoming game. The Lions defeated the Oilers, 20-13.

The team also had a strong game against Fountain Valley. The Barons were one of the top-ranked teams in the county and again, the defense made every yard gained a battle. Fountain Valley entered Westminster's territory only three times; consequently, the 3-13 score did not reflect the actual contest. Through both victories and defeats, the varsity team showed spirit, pride, and above all, ability.

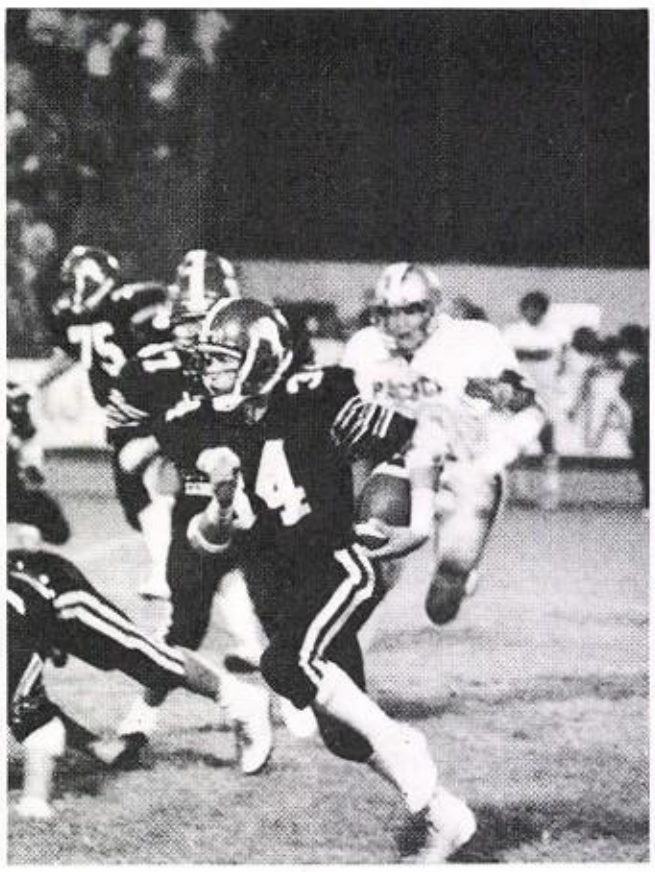
Team members exhibit individual talent

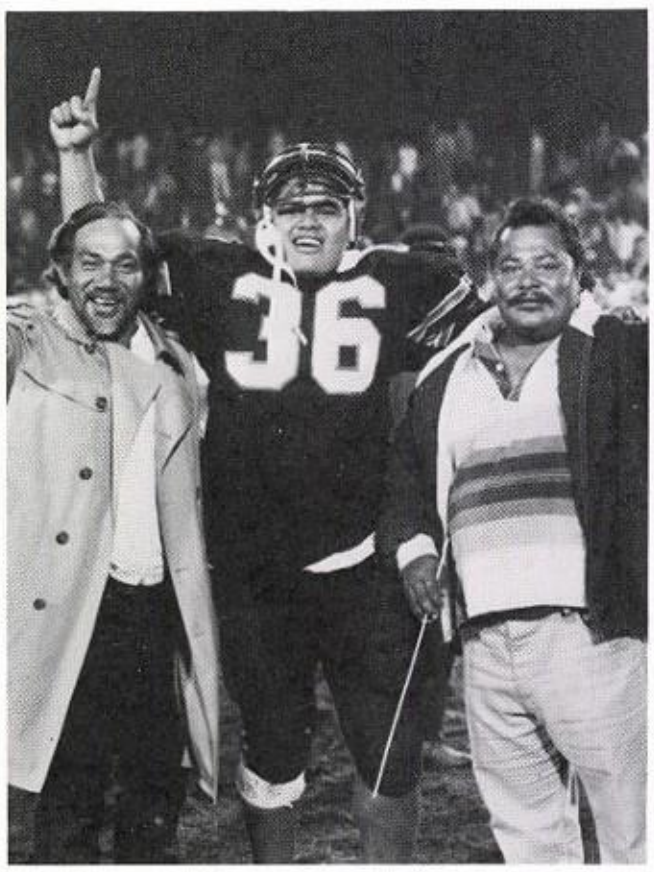
Brandon Jones, a 5'11", 185 pound senior played tailback for the varsity team, and does an outstanding job this season. He played a major role in the offensive unit, and was named offensive player of the week in the Pacifica game. Brandon's greatest accomplishment as a member of the team was rushing for 210 yards in the victory game over Ocean View. This total broke the previous school record of 200 yards in a single game.

"I'm glad I got the opportunity to set the new school record. All the after school practices really paid off. Football has been one of the most important and exciting experiences in my four years of high school." comments Brandon.



Completing the first down — Brandon Jones rushes past the 25 yard line.

McKay Galoia had an excellent season. He was a big asset to the team. McKay played both strong tackle, and defensive tackle, executing both positions with precision. Last year McKay played varsity and was elected to the All-League team for the first time. This year the 6'0, 240 pound senior was elected for a second time to the All-League team due to his defensive efforts.



Looking ahead — Quarterback Tim Hanson prepares to connect with an open receiver.

Girls show determination

The girls cross country team began their meet immediately following the boys. Misty Pflum starts out with a cramp in her side, and its intensity increases as she runs the three mile course. Her mouth and throat are dry, and each breath brings pain stabbing into her side. Finally, the finish line looms ahead of her. Coach DeWenter ***cheers her on. As*** Misty ***crosses the line, she collapses on the track. Her whole body feels as if it is on fire, and it is all she can do to inhale. The members of the cross country team didn't always suffer such hardships in the course of a race. However, the devotion to her sport that made ***Misty*** go on to the finish was apparent in the quality of the team. As in the past, ***Hilda Corral*** usually led the team, with ***Dee Dee Mock*** and ***Terri Johnson*** close behind. The girls had a good season, finishing second in the league.

Underclass score new high

One might think fourth place as a losing season, but if you consider that the Sophomore basketball team is the first team (of all the basketball teams at our school) to be over 500 in four years since the 1980 Freshmen, one might think twice.

The top scorers were Steve "Owie" Hurd his best game was against Los Altos where he scored an outstanding 31 pts. with 14 field goals. Jon Ostler did well also, scoring 25 pts. at the Long Beach Wilson game. Some honorable mentions should be given to Robert "Bobby" Martinez, John Mougin and Joe "Sly" Smith for their contributions to the team.

The District Freshman team did well and kept up the great Lion winning tradition, with a tough schedule to contend with they did alright.

League Freshmen broke even in wins all total but came up short in Sunset competition with only three wins to their name. The outstanding scorers were Hoa Nguyen whom socred 20 v.s. Dana Hill (64-54), Matt Jones, scoring 20 at Costa Mesa (70-42), and Bob Cooper who scored 13 v.s. Curitos (61-65) and 14 v.s. Sandeogo (57-55).

One more field goal — Gary Lewellyn shoots once again, the shot contributed 2 more points to the win against the Sea Hawks at Ocean View.

Lynne McDaniel Captures Title

Saturday, October 29, Lynne McDaniel was named first runner up in the Miss Westminster Contest. Her individual talent act consisted of an aerobic dance routine to ***Muscles*** and ***Let's Get Physical.*** Later in the competition, she was required to answer the question, "What do you consider a good leader?" She said answering the question was one of the toughest parts of the contest. After the evening gown judging, the M.C. announced the winners. "I couldn't believe my name was called. I was in total shock. I kept waiting for them to say it was a mistake," Lynne said. Although meeting many people and having fun made the nerve-racking contest a positive experience, other beauty contests are not a part of Lynne's future plans.

Standing Proud — Lynne McDaniel (far right), along with the queen and 2nd runner up receive their awards.

A Special Team

Paul Vandermost and ***Patti Reintz*** are two very active people. ***Paul*** is involved in Varsity Water Polo, Varsity Soccer, and Junior Varsity Swimming. ***Patti*** is a Varsity Flag Cheerleader and is involved in the Secret Pal Club, and was mentioned in ***Who's Who in American Students.*** They both enjoy being with each other, driving around in their sports car, and traveling.

When asked what each of their wishes would be, ***Patti*** said, "To succeed in life in all that I do." ***Paul*** said, "I want to be at the top without ever working for it." Both plan to go to a Junior College for two years, and transfer to a four college. ***Paul*** will major im computer programming. ***Patti*** is interested in the nursing program at Long Beach State. They both agree that school spirit and a clean campus make for a better school.

Paul and Patti feel welcome as they enjoy their dinner.

Turning 18 Means . . . ?

Turning 18 means different things to different people. When a few seniors from the class of "84" were asked what turning 18 meant to them, here is how they replied: To me, turning 18 means no more kiddie stuff. Once 18, I vow not to eat ***Captain Crunch*** cereal and I sincerely promise to properly dress G.I. Joe. — ***Bob James***

When I turn 18 I think I will feel caught in the middle! I won't be able to consume alcoholic beverages legally, and I will be accountable for "fraternizing" with younger females. ***"Richie"***

It means I can go to all the places my mother warned me about. — ***Kris***

Getting in more trouble: It means I'm an adult and I may do what is right for myself. — ***Tim Fox***

I'm a year older, a day late, and about $1,000 dollars short. — ***Brian Straly***

One Classy Lady

Charlene Hoffman, a typical senior, enjoys a variety of sports and working out daily at the gym. She also likes going places with her friends and Friday night football games and parties. She often goes shopping with her mom, and loves to drive her Camaro to Big Bear with her friend Stephanie to snow ski.

Charlene has great enthusiasm for learning, and therefore doesn't object to attending school regularly. She believes the teachers are responsible for her motivation to learn. She does, however, disagree with the new policy restraining students of age eighteen from writing their own notes. Upon graduation, she plans to join the Air Force and become a pilot. ***Char*** also wants to complete four or more years of college.

Let me entertain you — With top hat and cane, ***Char Hoffman*** looks forward to an elegant evening.

What is Your All-Time Fantasy?

Some class of "84" answers include: "Plain and simple, to be richer than anyone else." — ***Sandra Schwenzfeier***

"To find a cure for all social diseases." — ***Angela Velazquez***

"To become a rich and famous lady and marry Richard Gere." — ***Charlene Hoffman***

"Being on an island with the most beautiful girls in the world and spending a month with them and doing whatever nature wants us to." — ***Tony Verti***

Portrait of Friendship:

Best friends through grades eight to twelve, Jill Vannatta and Jenny Monroe enjoy each other's company. Both enjoy waterskiing, snow skiing, and going to the beach, but one of their favorite pastimes is eating ***Hägendaz*** ice cream at ***Peter's Landing.*** They like to make up songs about their experiences, too, but their all time favorite activity is eating Pogens cookies.

Jenny is involved in tennis and drama, which takes up most of her time, while Jill is busy with cheerleading. Jill and Jenny explained, "W.H.S. has been a big part of both of our lives. Our friendship has grown and matured here."

Life of Adventure

Bill McKeague is striving to make his high school years the best possible, by playing defensive tackle on the varsity football team. "I really enjoy the spirit and competition in football," stated ***Bill.*** He also works part time for a construction firm.

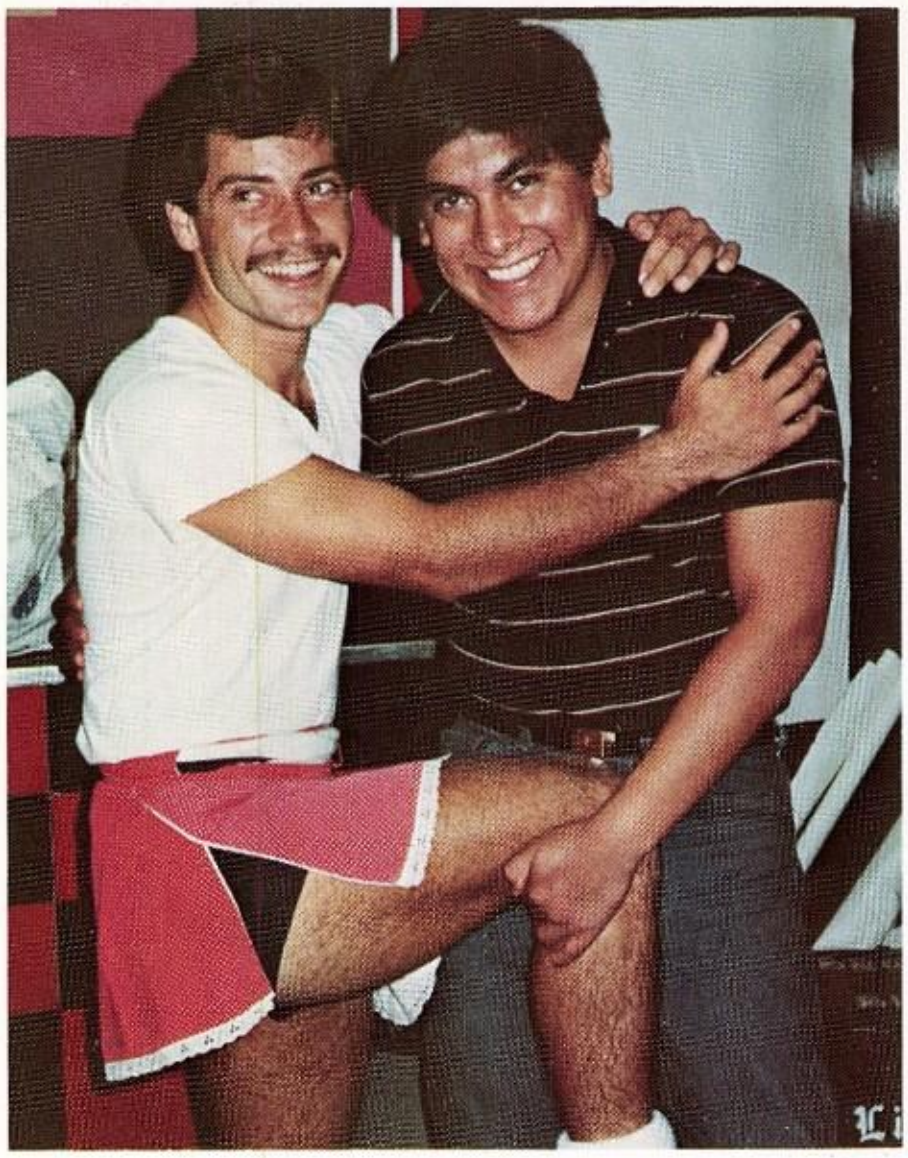
Bill says, "I'll never forget the good times with my friends. "Like we had the raddest egg fight on Halloween night." He continues, "Matt Eddie's toga party was great, but getting caught without my toga has got to be the most embarrassing moment in my life."

In ***Bill's*** sophomore year the football team was undefeated. "That was excellent!" says Bill. He hopes to fulfill his dream by traveling across the country on a motorcycle. "That would make me feel free and adventuresome," says Bill.

Waiting to be shot — Bill McKeague stands like a man. (Proud to be a Lion.)

College Pickin'

Many graduating seniors panic and start trying to figure out what they want to do after high school. Some will apply to colleges and universities and further their education. This the the time when they start inquiring about the best colleges. The most popular schools, such as, ***UCLA, UCI, USC, CSLB, and SDSU*** tend to be very expensive. These schools have the greatest of students enrolled, ranging from 15,000 to 35,000 students. The annual costs to attend these schools are from 5,000 to 12,000 dollars a year. Although some will end up in one of the above colleges, many will attend two-year colleges like Goldenwest, Orange Coast, Santa Ana, and Chapman, since some need a junior college experience before entering a university.



Sam and Art eagerly await the excitement of co-ed life on the college campus.

Kriss Keeps Active

Kriss Miller, enjoys sports and is currently involved in tennis and gymnastics. She likes music and her favorite group is ***Bauhaus.*** She spends her weekends with her friends, Chris and Robin, and is usually found dancing in Hollywood or goes to gigs with a lot of people. When asked who she hangs around with she said, "I hang around different looking people, but, I don't look at that, I look at what's inside and what they believe, that's what really counts."

If ***Kris*** had one wish she would wish for ten million dollars to give her parents each one million and another million would be donated to charity. She would then travel all over the world, "And I'd have a ball," states Kriss.

When she was asked if she likes being a teenager, ***Kriss*** exclaimed, "I LOVE IT, I'm having the best time of my life!!!"

The day drags on — Kriss Miller patiently waits for the bell to ring.

There's No Business Like Snow Business

John Glasgow has been skiing since he was six years old. He enjoys skiing with the Gold Mine Race Team in Big Bear. He has taken first place in several races, but John says, "My biggest success so far has been going to the semi-finals in the Junior Olympics!"

"I hope to go to Orange Coast College for two years and then transfer to Colorado State," comments John. For his career he wants to become a ski instructor at Mammoth.

Skiers of America remember this face! John Glasgow plans to make his mark in the world of skiing.

Old Age Already?

Seniors rarely think about their age of retirement. Since it's actually the beginning, "Old" does not usually enter the minds of those about to graduate. A survey was taken in effort to find out what seniors plan on doing in their old age.

Friends Like This Last Forever

Ken Mount and ***Delbert Pickney*** have been friends for five years. When asked how their friendship first started, they replied, "We first met in eighth grade but we really didn't get to know each other until high school when we competed together in football." Besides football, ***Ken*** and ***Delbert*** are also in the ever popular Spanish club, Delbert "the buff sergeant at arms" and Ken part of "the founding fathers." Their interests seem to be quite similar. Their favorite meal is the Big Boy Combo. They both enjoy sports. Their girlfriends, Krissy Ragos and Laura Carey, interesting enough are also best friends. Even though the four years of W.H.S. are now over, the memories will never end.

Rose Asis, Secretary, felt that there was a increase in enthusiasm, especially at the pep ra lies. When asked why she wanted to run for this office, she answered, "I wanted to get in volved with more activities."

Dawn Tanamachi, who was elected tre surer, believed the class of 85 had a good chance of becoming the class of the year. "I think we have a pretty good chance, we have more support and we came close last year." Tanamachi also recalled why she wanted to run, "Last year was really boring to me so I wanted to make something of my junior year.

daily locker lunacy

Time: 8:54
Place: E-4 (Mrs. Riness' Marriage and Contemporary Life.)
Scene: Two girls walking from class to their locker bay.
L.D. — Move it! Move it now! I'm sure. This is crazy! Can you believe that every single-solitary locker is taken?
S.F. — No, but I'm starting to. What happened this year? When I was a sophomore there were thousands of lockers to spare. Now with so many new people it seems impossible to even find your own locker! Let alone have your lock cut off!!
L.D. — Yeah, and if this freddie doesn't move I'm going to make him!!!
S.F. — AH, come on, you have to have pa tience. You know the saying, good things come to those who wait.
L.D. — Oh Yeah? I've got to be in H-24 i 2 minutes. I'm now in the N locker bay! An your trying to tell me to wait for good things!! Don't tempt me to kill before I'm 2 Finally! OK, 41, 21 . . .
S.F. — Well, I'll see ya! Hope you're not too late!
L.D. — Bye! OHH, this is ridiculous!!!!!

Peace at last — Two students beat the third period rush hour by leaving class a minute early.

P.S.A.T challenges juniors

On October 12, 1983 many juniors gathered in the student cafeteria to take the *PSAT*. Mr. Blankinship carefully gave directions and answered any questions before the test was administered.

"Everyone was anxious to take the test and most had studied the previous week by taking practice tests in the booklet," stated one junior. The reason these juniors took the PSAT was to get ready for the *SAT*. The *PSAT* scores were also qualifications for certain grants and scholarships. When the juniors received their scores they were able to estimate how well they could do on the *SAT* and also how hard they needed to work for bettering their SAT scores.

All in all, the juniors were glad to know the test was only preparing them for the *SAT* and not their final scores. One junior stated, "It was much harder than expected, and it will take many months of practice before doing well on the *SAT* next year."

Junior Kathy DeCourt resembles a professional model even with Citadel's amateur photography.

"Being a junior is great!" exclaims Kathy DeCourt while expressing the feelings of many of her classmates. "Many things have changed." Kathy has lived in Westminster for three years, and even after she moved to Garden Grove, she still attends WHS. Kathy also is very active in her hometown activities and still finds time to work.

"I'm working at McDonalds, and is it a job!! And yes I can reach the counters." comments Kathy on her work and height. She claims to be one of the shortest Juniors in school.

Kathy attended a modeling school for a year and a half where she took many classes in dress, dance, make-up. She uses what she learned for school, work, and when she goes out.

Helping out in the yearbook this year, Kathy tackled the job of finishing the activities section. Her favorite teachers are Mr. McGuckin, Mr. Matza, and Coach Bowman.

After graduation, Kathy wishes to become a counselor for teenagers, and try to help them as much as she can, especially pregnant teens. In her senior year she plans to keep up her 3.4 grade average, and earn enough money to go to college. "I can't wait until next year!"

Chippendale's men of the 80's

As the 80's progressed, so did the popularity of the Chippendale men. People of the female persuasion, ranging from 16 to 60, spent their hard earned dollars just to catch glimpses of these men. The unfortunate women who did not get to see them due to age, lack of transportation or not enough money, didn't have to miss out on everything. The Chippendale craze had a wide variety of memorabilia. It ranged from tempting calendars to their own coffee mugs. The men from Chippendales put new dreams into womens lives. Even if their dreams never came true, it definitely put happy thoughts in their minds. With all the corruption in the world it is nice to have something to escape to. Having the Chippendale guys around it gave women the chance to escape into their own world of fantasy. Even after the 80's are gone, the popularity, or at least the memory, of these men will last in the thoughts and dreams of women around the world.

Twins for life

Not everyone has a guaranteed friend for life, but Jackie and Yadira don't have to worry about that. They are both involved in the Spanish Club and want to continue being members for next year.

After graduation, Jackie plans to attend college and major in drafting design. On the other hand, Yadira is considering going to U.C.I. and major in medicine.

When Jackie was asked what she liked about being a twin she said, "I always have someone next to me and I don't worry about being alone." Yadira answered by saying, "I always have someone to talk to whenever I'm lonely, when I have a problem and someone to cheer me up when I feel down."

They were born in Guantanamo, Cuba, bu at the age of 40 days they came to this count and became American citizens. Their birthda is the 31st of January which is their dad's birt day too.

For their sixteenth birthday, their parents got them a car. It's an 83 Nissan Centra, which can easily be identified because of thei license plate. It says "twins '67."

It is hard to believe, but they are identica twins. When they were younger, their mom had a tough time trying to tell them apart. F nally she started putting different colored rib bons in their hair to tell them apart.

They both like pizza, the L.A. Dodgers, and sometimes they even like the same guy.

by Kristin Tucker

Alchoholism has no age limit. A 1975 national analysis of youth drinking surveys found that 70% or almost 17 million of today's in-school teenagers have had a drink. Forty-five percent of these students report at least one episode of being high, tight, or drunk. Nineteen percent report monthly intoxication. More than 60 percent of the 7th graders and 80 percent of all 12th graders now drink.

Alcoholism is an illness like most other illnesses — heart disease, T.B., cancer — it can strike people at any age.

What happens when you get drunk? As the amount of alcohol in the bloodstream increases, change occurs in the body. Vision becomes impaired, speech becomes thick, coordination deteriorates, emotion and mood becomes unpredictable, and many more abilities deteriorate. No matter how you look at it, drunkenness is a state of physical and mental incompetence. It is strange that people would deliberately become severely handicapped.

sophomores take control

An experienced group of sophomore officers took the helm of their class to make this one of the most colorful and eventful years. Working diligently over the summer, they master-minded the many sophomore sponsored events.

Their first major activity was the Masquerade Ball which was a major success. According to Sarah Dohi, "The evening was successful because we worked hard for original ideas." Working concessions and selling popcorn, hot dogs and ice-cream sundaes were just some of the many ways that money was raised for the class and United Way. In addition to these sales, they sponsored a sock hop as well.

Overall, the main concern of the sophomore class committee was to get more students involved in extra-curricular activities and unify the class of 1986.

The sophomore class committee included: Jody Valles, ***President;*** John Mougin, ***Vice President;*** Carmen Christiansen, ***ASB Commissioner;*** Rachel Vasquez, ***Class Representative;*** David Shelley, ***Treasurer;*** Sarah Dohi, ***Secretary.***

Dodger blue fan-atic

by Eric VanHorn

On the surface, ***Jason Zenk*** is an average sophomore. But beneath that average exterior beats the heart of a true Dodger fanatic. In this devoted fan's room, the walls are covered with posters of such Dodger stars as ***Steve Sax, Bob Welch*** and, of course, Fernando Valenzuela. When living in San Francisco, Jason saw the Dodgers play the Giants at Candlestick. He was so impressed with the Dodger's playing that he became a lifelong fan. For the past 10 years, this loyal spectator has had an ambition to play for the many-time World Champions. He spends one to two hours a day practicing for his dream. Of couse, this fanatic has all of the official Dodger equipment and even cuts his hair like Steve Sax. No book on his heroes is safe from his grasp. Jason Zenk will either be in the Dodger organization or in the stands but either way, he'll still be wearing Dodger Blue.

strictly academic

by Thu-Uyen Dang

I was surprised, happy and proud when I found out that Dr. Eastwood and Ms. Sebastian had selected me for WHS 1984 Academic Decathlon Team. At first, I didn't think it would be too hard. When it came down to study . . . boy! was I wrong! There were 10 different areas of study, some were very broad and others I had never covered before. The team and I spent a lot of hours during lunch and after school with different teachers for different subjects, but, most of the studying and reading was done on our own. It was tough, but also very rewarding. I was able to experience the work load and challenge which will prepare me for college. At times it was very frustrating because I had five other academic classes to take care of. We were absorbing as many facts and information as we could over a short period of time, which helped us to increase our abilit to do work faster.

I guess the speech and interview was the hardest for me because I had never made a speech before. For the interview, I had to ki some of my habits like shyness and nervousness. I also had to learn how to look peopl straight in their eyes when I talk to them. Overall, getting involved in the Decathlon was the greatest experience of all my years here.

After a big victory, as 7th overall out of 53 schools, the Academic Decathlon team members sport some of their medals. ***Top row*** — Oay Luu, Brian Kelly, Bret Roy, Tom Seeling, Pat Chen. ***front row*** — Thu Uyen, Lynn Guifford, Kim Lang.

priorities: homework or job?

Many students have after school jobs. Citadal staff asked how it was affecting their homework, and this was their response:

My job has no affect on my homework. This is the first year in school that I have had a job, and I'm doing better now than ever. My grades are higher this year. — Debbie Freislinger

Working takes a lot of time away from homework, but I make time for it in the evening when I get home. — Aminta Justen

I only work for three hours and that leaves plenty of time for homework and friends. — Suzanne Hutter

I find that working has no effect on my performance at school. After I get home from work, I still have time to do homework and things that I like. — Bob Bain

My hours are short and I don't work too many days a week, so that leaves plenty of time for homework. — Phil Carreon

Sooner or later, all computer users feel just like that. Whether it's after a sub-routine fails and messes up the works or if the 3,150 line program that took hours to enter simply disappears into electronic nullspace never to be seen again, the frustration is the same though few ever remedy the situation in the way described above.

Apple Computers Inc. recently gave over 5000 Apple II+ home computers to schools nationwide. Now, along with new terminals our computing ability has increased many times. Tied in with this are more computing classes and rooms set aside for these classes. Many students are taking advantage of all this and are training for the future.

meaning of Christmas

Christmas has many different meanings to different people. When some underclassmen were asked what Christmas meant to them, this was their response:

Christmas is the time of year when families get together to celebrate the birth of Jesus and you give things to others with love. — ***Jay Huiberts***

It is a time that little kids dream about weeks in advance. I wish I was little so I could have the old feeling of Christmas again. — ***Suzanne Hutler***

Christmas time is a special time when families get together. It also symbolizes Christ's birthday. Happy Birthday Jesus! — ***Debra Perez***

Starving! By saving my lunch money for presents! — ***Julian Roberts***

Visit from Grandma, midnight church, warmth and love. — ***Carmen Christiansen***

Christmas means to spend time with your family. To thank God for living an extra year. — ***Lisa Dean***

To me, Christmas means being with family and friends, giving and receiving gifts. It's the time of the year to really show your love towards others. — ***Tina Burk***

It gives me a chance to become closer with everyone I know, and I want to share love, gifts, and mistletoe with all my gentlemen friends. — ***Monique Mantoen***

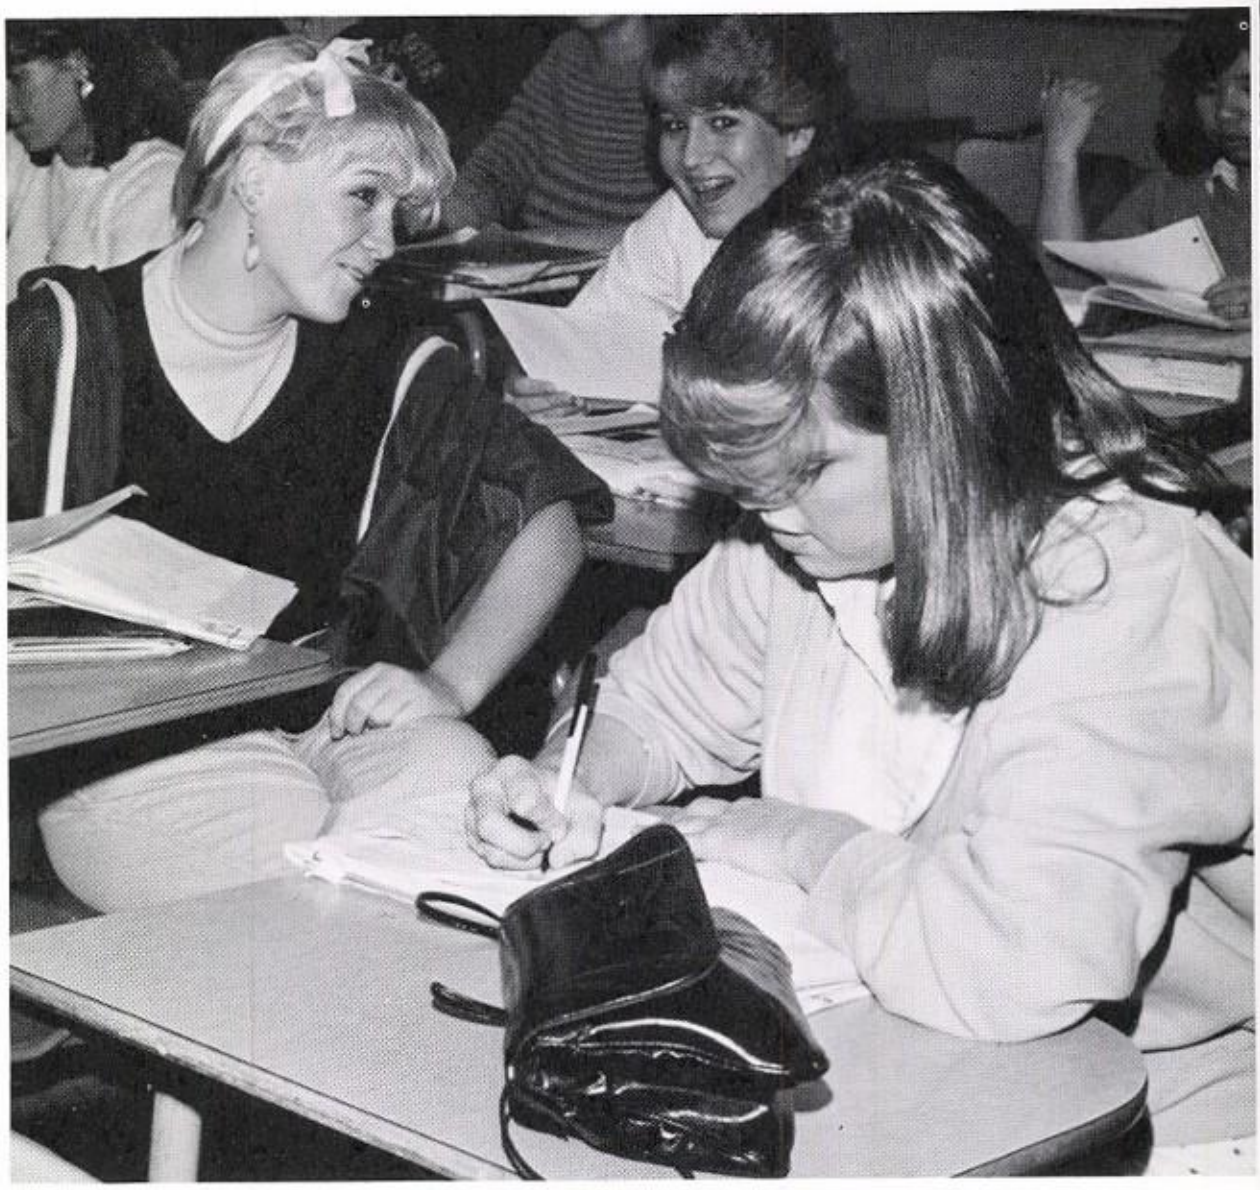
One of the hardest part-time jobs in the world must be working in a major department store during the mad rush of Christmas shoppers. The retailers boasted this Christmas to be the biggest in history as the nation strongly recovers from the recent recession.

"He got an 'A'!" — Giving ***Gary Glass*** a pat on the back is his friend ***Sabrina Dennis.***

Play it again — ***Darin Terry*** giving it his all for the Friday night performance.

"EAT" your trash — A better way to clean campus.

Put it on paper — ***Kerrie Fletcher*** takes notes to understand her Spanish better.

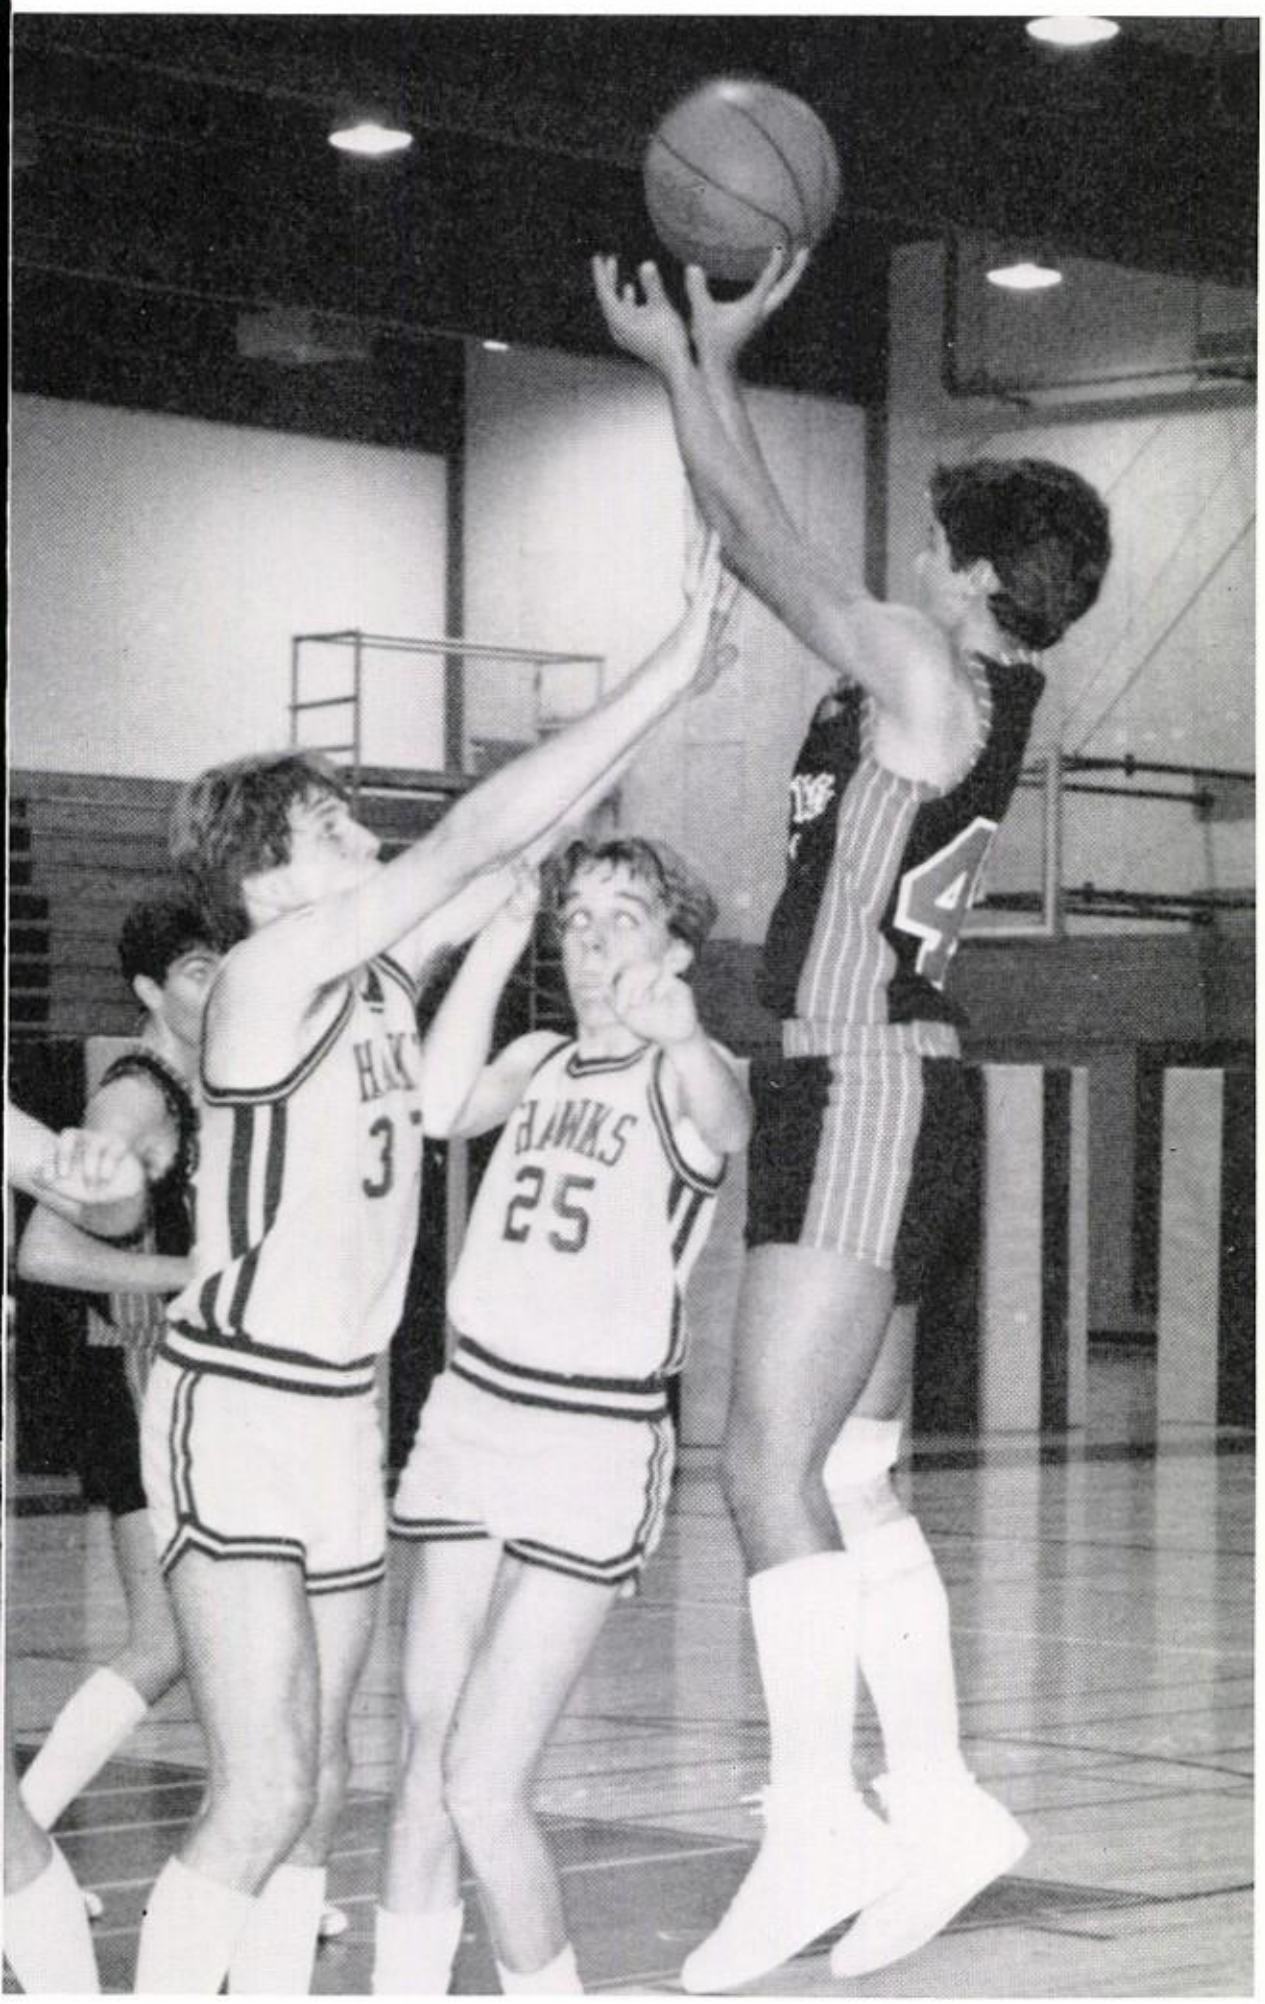


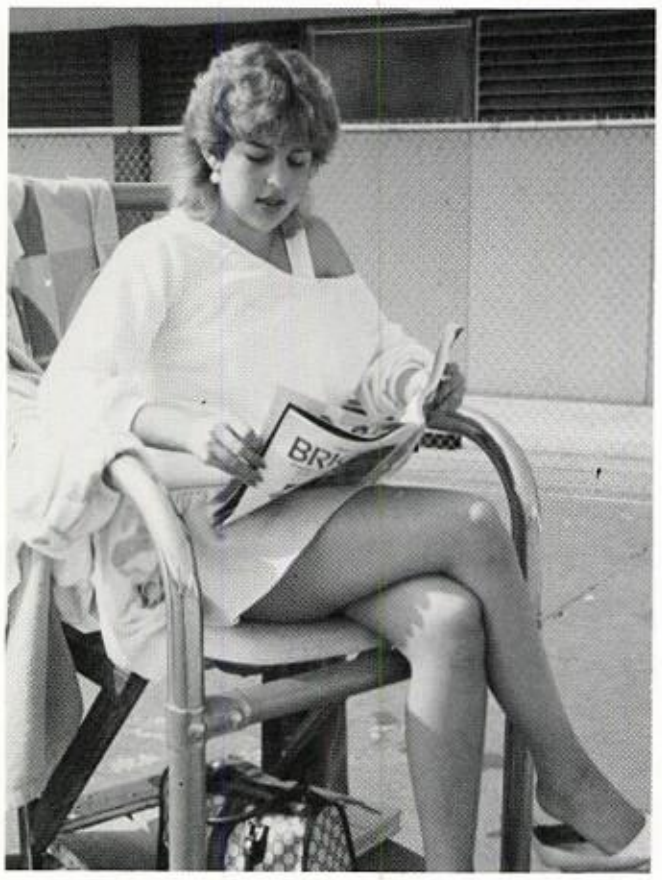
Martinez Plays in all

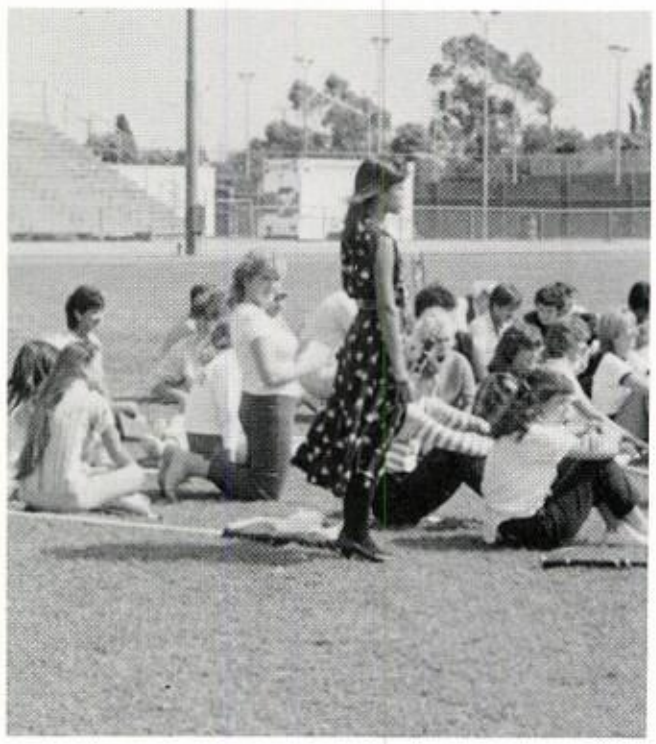
An almost impossible job would be getting good grades and starting on the sophomore football and baseball teams. Well, one person in particular has achieved this and more; sophomore Robert Martinez.

Robert won most valuable player last year as a freshman in football, basketball and baseball. He plans to go to college on a sports scholarship. As for what sport and what college, he has yet to choose — football is his favorite.

He enjoys being a sophomore for one reason — "Because it's better than being a freshman." His talent in sports proved valuable when Robert scored 24 points against Fountain Valley High School. And when he and Steve "Owie" Hurd are on the court along with the rest of the Sophomore Basketball team, they perform excellently.







Just taking it easy — Relaxing in the sunshine *Jody Valles* finds something interesting in G.Q.

"Jump!!" — Flying on his feet *Robert Martinez* takes a shot from 12' out against the Seahawks.

"Hurry up!" — Trying to get all the moves straight *Julie Lee* listens to directions.

The ladies at the top

The Freshman class officers showed exceptional vigor and courage this year. They demonstrated great pride and dedication in everything they did, making them one of the most active and successful freshman classes in years. Fighting for the title "Class of the Year" until the end. They proved themselves to be both competitive and spirited.

This group of young people promise to do great things for W.H.S. during their years of high school. This will be done by coming in second in the United Crusade and first in the Homecoming Week Decoration contest.

The members of the Freshman Cabinet are as follows: Chrissy Ragos; President, Jamie Sherwood; Vice-President, Korey Johnson; Secretary, Margaret Murphy; Treasurer and Amy Takai; freshman Commissioner.

If the attitude and energy that was shown by the freshmen this year keeps up, the class of 87 will surely leave a positive mark on Westminster High. It is for this reason that we should be thankful for the members of the cabinet. Together they have successfully completed their task.

respect of a Freshmen

In surveying eighteen freshmen, it was generally argued that they do not get respect. "We do get more respect than Rodney Dangerfield," said one anonymous freshmen. Here are some of them

Yes, we get respect, we all stick together. — *Jolene Parlin*

I get respect all the time, people love me and give me money! — *John Calaldo*

Yes, I get all the respect I want because I'm built like Lou Ferrigno. — *Jim Gardener*

I get respect because people like the way I pop and break dance. — *Mike Velasquez*

No, I don't get respect because the people hang around with are older and they hate me — *Cherith Sparks*

I don't get respect but I don't get belittled — *anonymous*

As long as freshmen are around they will always have problems with respect! — sophomore *Doreen Sandman*

No respect is right — These two older teens can't resist fun when they see it even if the fun is picking on a freshman.

The little ones

Child development is a course taught by Ms. Marconi, which deals with the responsibility of parents and children, parent child communication and the development of children. Learning about children through classroom visitations of toddlers and preschoolers has been a very rewarding experience for the students. Child abuse and neglect, special parenting and single parents are also subjects covered in the class. Many students find this class rewarding because it gives them first hand information about how children think and act. It is helpful in babysitting understanding younger brothers and sisters and for understanding the responsibility of raising children.

resolutions of 1984

January is the month for resolutions, and at W.H.S. the tradition is carried on. We asked the underclassmen what their New Year's resolutions were and here is that they said.

To make this year with Mike the best in the world. Love you Mike. — ***Beth Hammond***

To help others to become more sure of themselves and to help smokers quit smoking. — ***Nancy Lehman***

To gain some common sense so Kenny will be proud of me. — ***Chrissy Ragos.***

To pass all my classes somehow. — ***Ralp Quinta***

To stay on a diet all year. — ***Cathy Chieco.***

To meet as many guys as I can before n Senior year. — ***Lucy.***

Dynamite in small packages.

A 4'8" wrestler may not seem like much, but freshman Allen Soto is as fierce a competitor as any other. "Little" Allen as he is known for obvious reasons, has big hopes for the future. He wants to wrestle next year, eventually on the varsity team, and go out for football. If he had to choose another sport, it would be baseball. "Baseball is fun," Allen said.

At 72 lbs, Allen is by far the lightest member of the team. However, he can beat opponents who are 20 lbs. heavier than he.

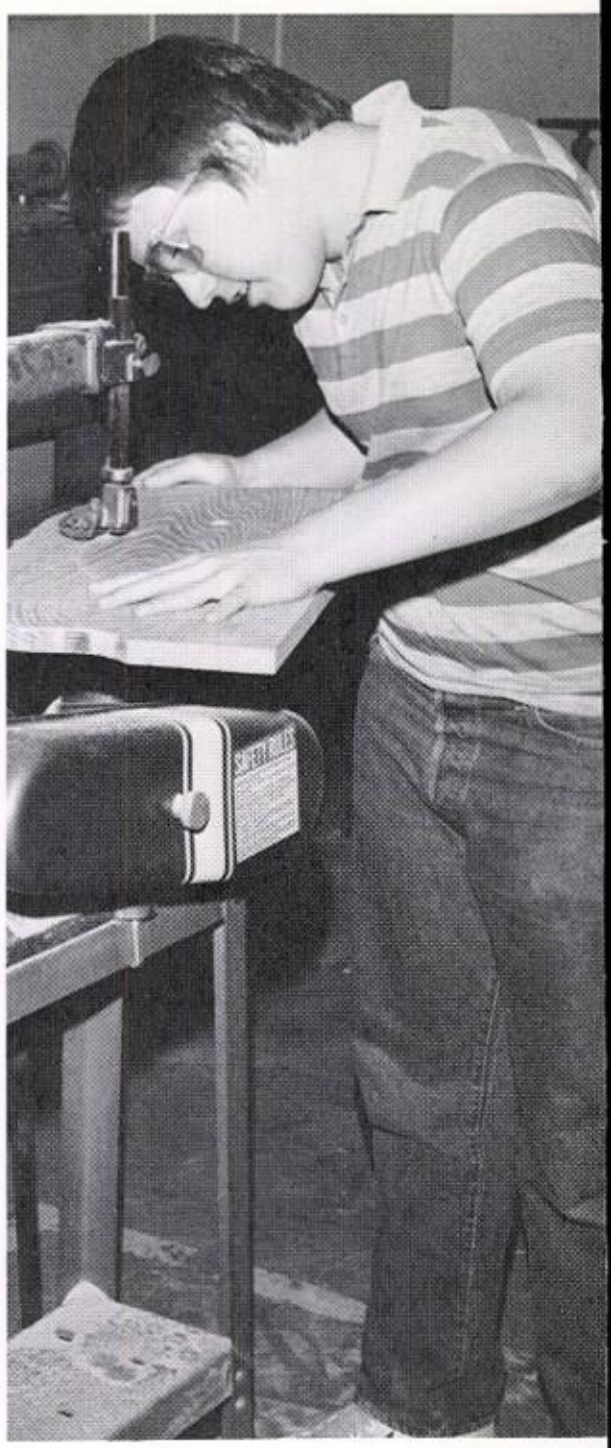
"Allen is an excellent wrestler, and does well in his weight class," said Gene Rock and Mike Cover, fellow team-members.

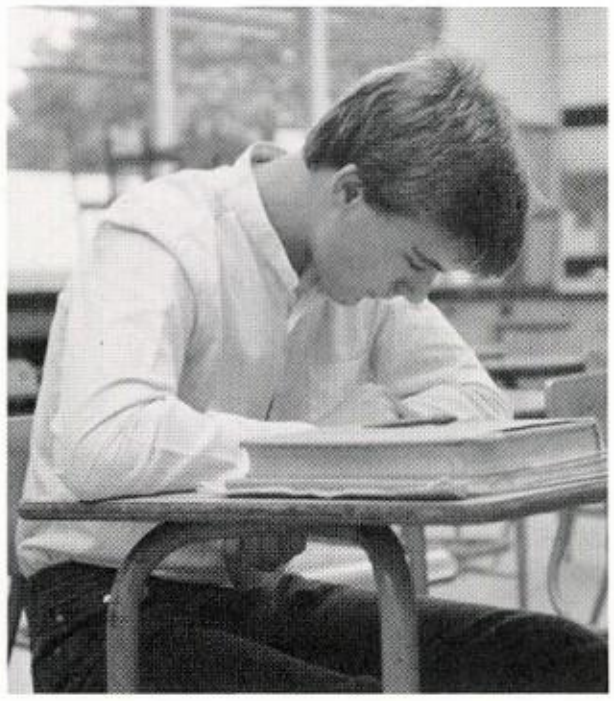
When asked why he enjoys wrestling, Allen stated, "It's a good sport and you can meet a lot of new people. I wish in the future that there would be co-ed wrestling."

One thing is for certain is that as far as Allen is concerned, dynamite comes in small packages.

Keeping in step — these girls try to last Mr. Matza's heart test.

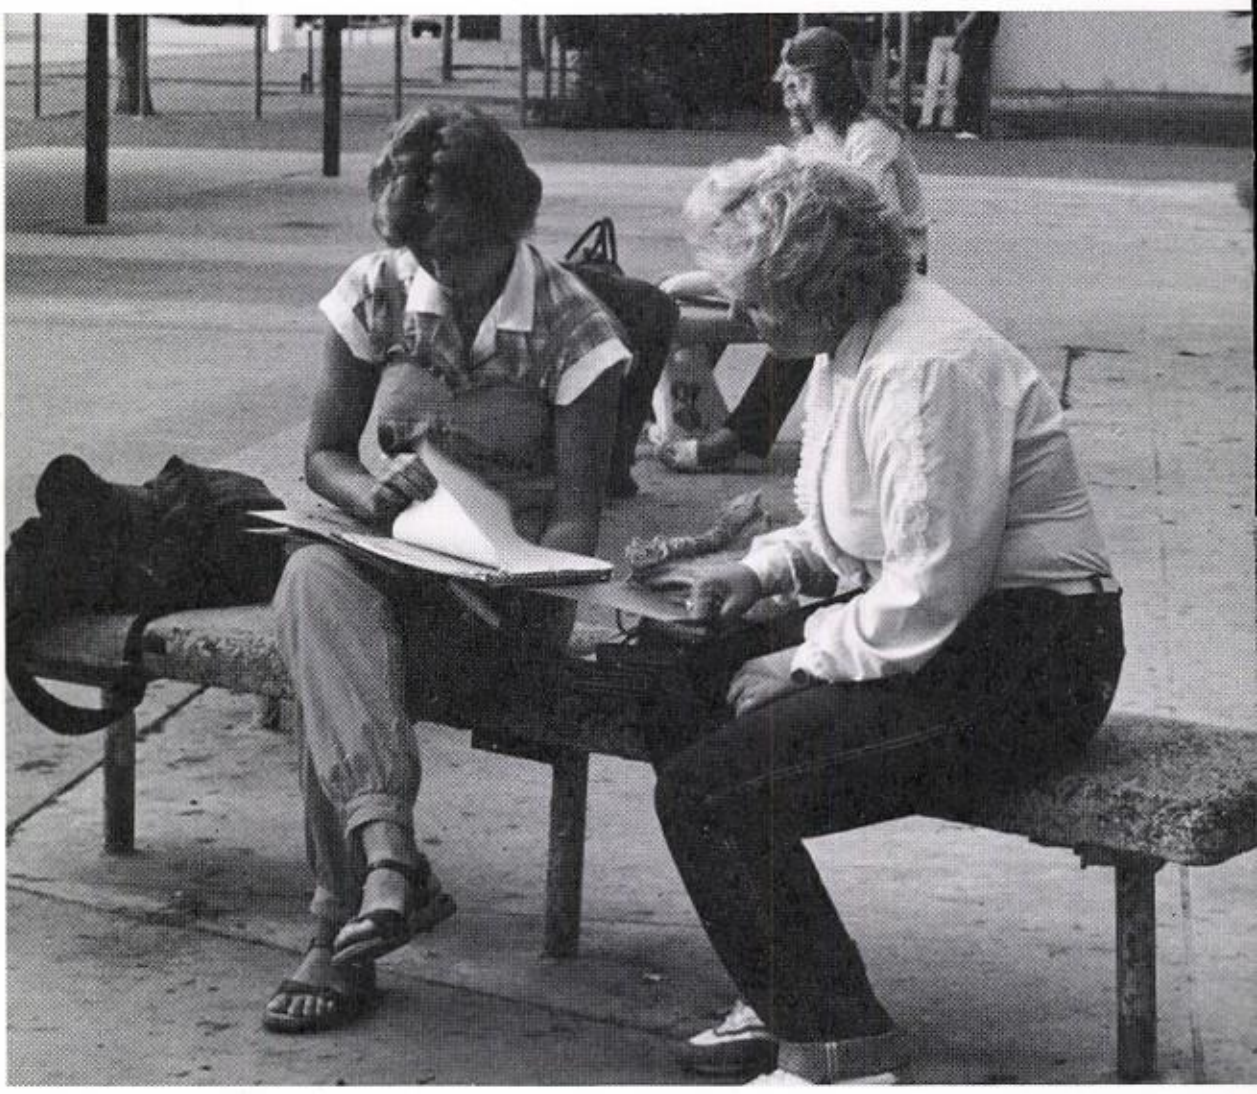
Working hard — this young man strives for perfection.





Wasting no time — Scott Rondon studies every time he gets a chance.

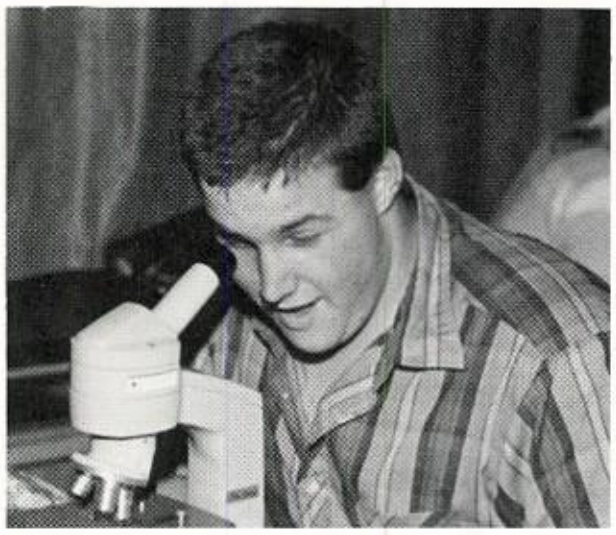
Sisterly love — Shana Knepper and sister Rhonda study before rushing to their next class.



Europe in perspective

Mrs. Dutton, an English teacher, offered to be counselor for a European tour set for June 26, 1984. It was offered to anyone interested, and most of the money had to be paid before March. The total cost was $2,306.00. This amount may seem frightening since spending money and the passport fee were not included, but this includes all breakfasts, some lunches, dinners, hotels and transportation for 28 days.

Some of the countries to be visited are England, France, Germany, Switzerland, and Italy. The company in charge of the tour is ***American Leadership Study Group.*** It has already logged over one billion passengers. ***Kristi Nutt,*** a senior bound for this trip states, "It's going to be a good experience, although it will be hard getting used to all the different languages and food."



Keeping busy — Tammy always finds something to do in class.

What are they up to? — Janice Howard and Rhonda Angulo discuss later plans before leaving to their next class.

Completely overwhelmed by his discovery of ameobas — Matt Brown jots down his findings.

freshman high hopes

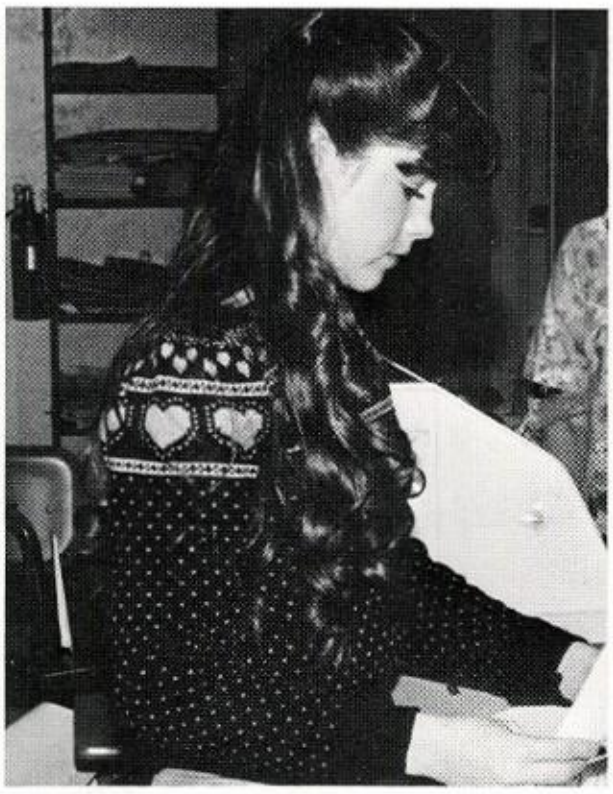
Many freshmen have their own idea of what they would like to do in the years to come. Few hope to be in the "in crowd" or maybe the most popular person in school. Whatever they have in mind will definitely take some time to achieve. But, for the moment they surely have high hopes. When taking a survey, here's what a few freshmen students hoped for:

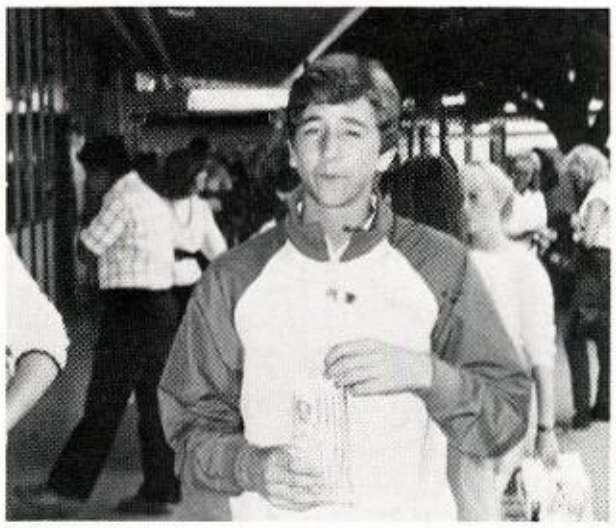
To have fun and meet a lot of nice girls! — *Jon James*

I would like to accomplish my goal of becoming a better singer, and a better person. — *Pamela Smith*

I would like to gather up enough knowledge to be able to make something of myself. — *Corey Baker*

To prepare myself to become a good chef, then go to Europe and study with the great chefs. — *Gary Randoll*

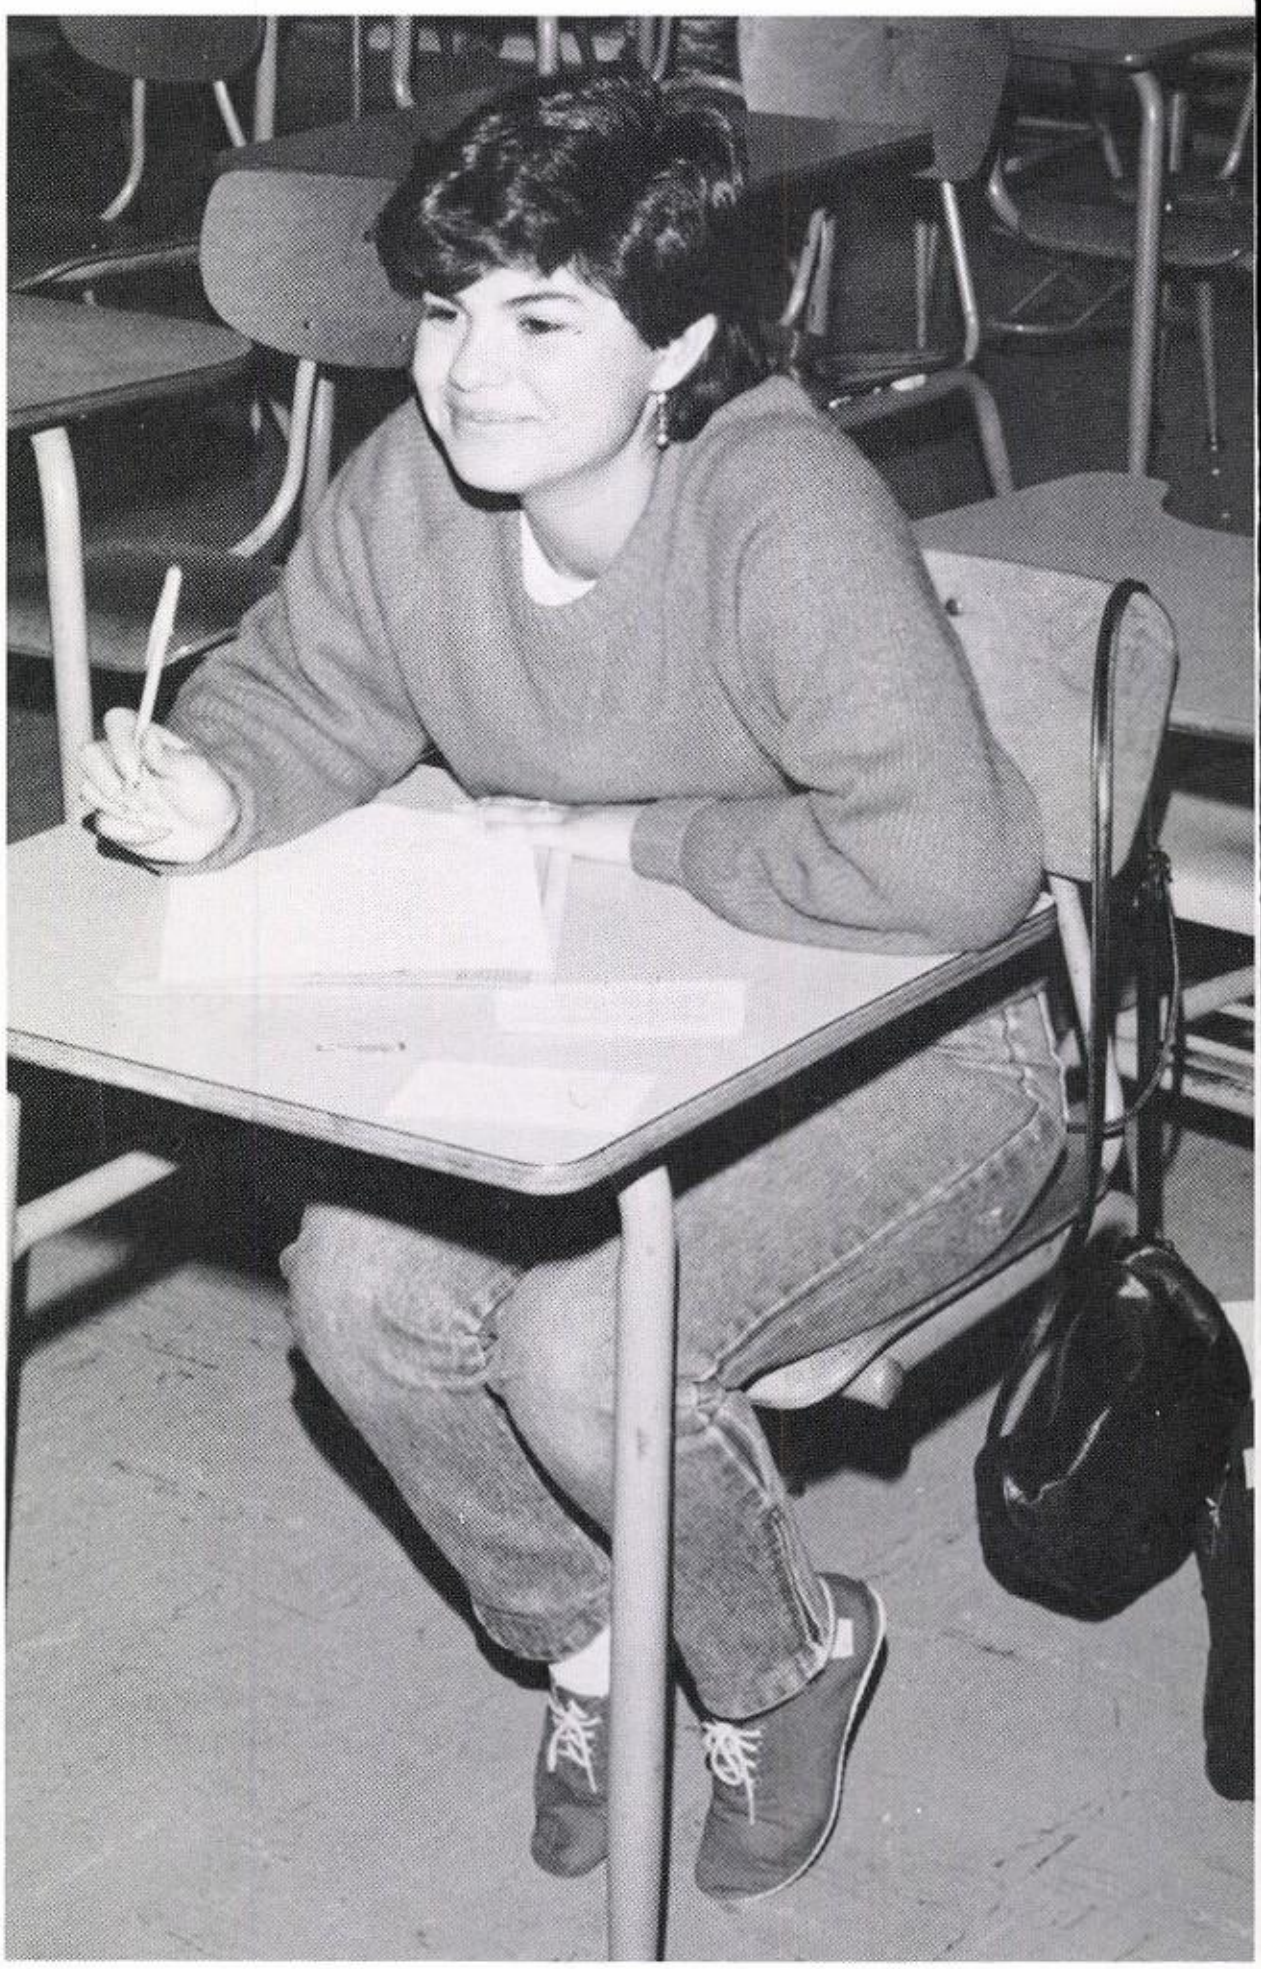


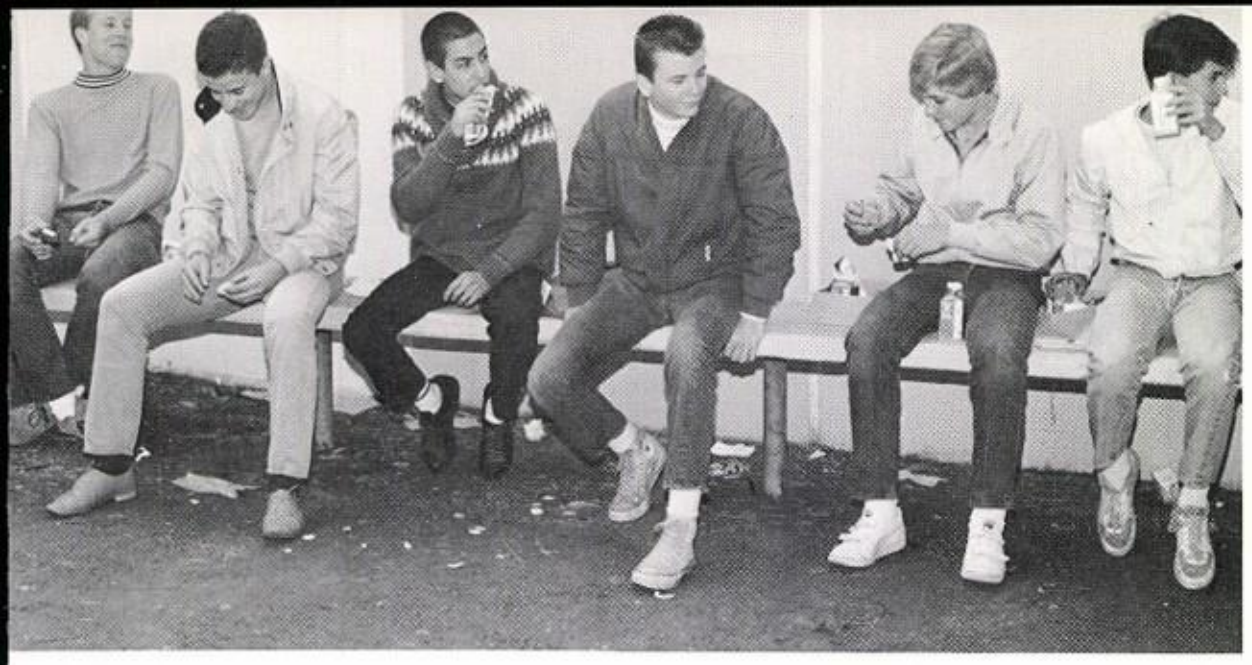


Work, work, work! — Angel Garner copies another work sheet for Mrs. Carolle

25¢ lunch — Rick Lindguist substitutes popcorn for the schools famous lunch food.

Smiling, but alone — Angelica Carbattal is an aide without a class.





Lunchtime at the wall — These students seem to believe in staying on campus. Especially after the police started giving tickets to people without lunch passes.

"I like your teddy bear" — Jeff Marshal, Diane Zimnicki and friend eat lunch outside of Globe West Theatre.

"Act normal!" — These students show off in front of an Albert and James Yearbook photographer.

Up for two — Larry Bleich takes a shot while David Boughton guards in Miss Smith's sixth period p.e. class.

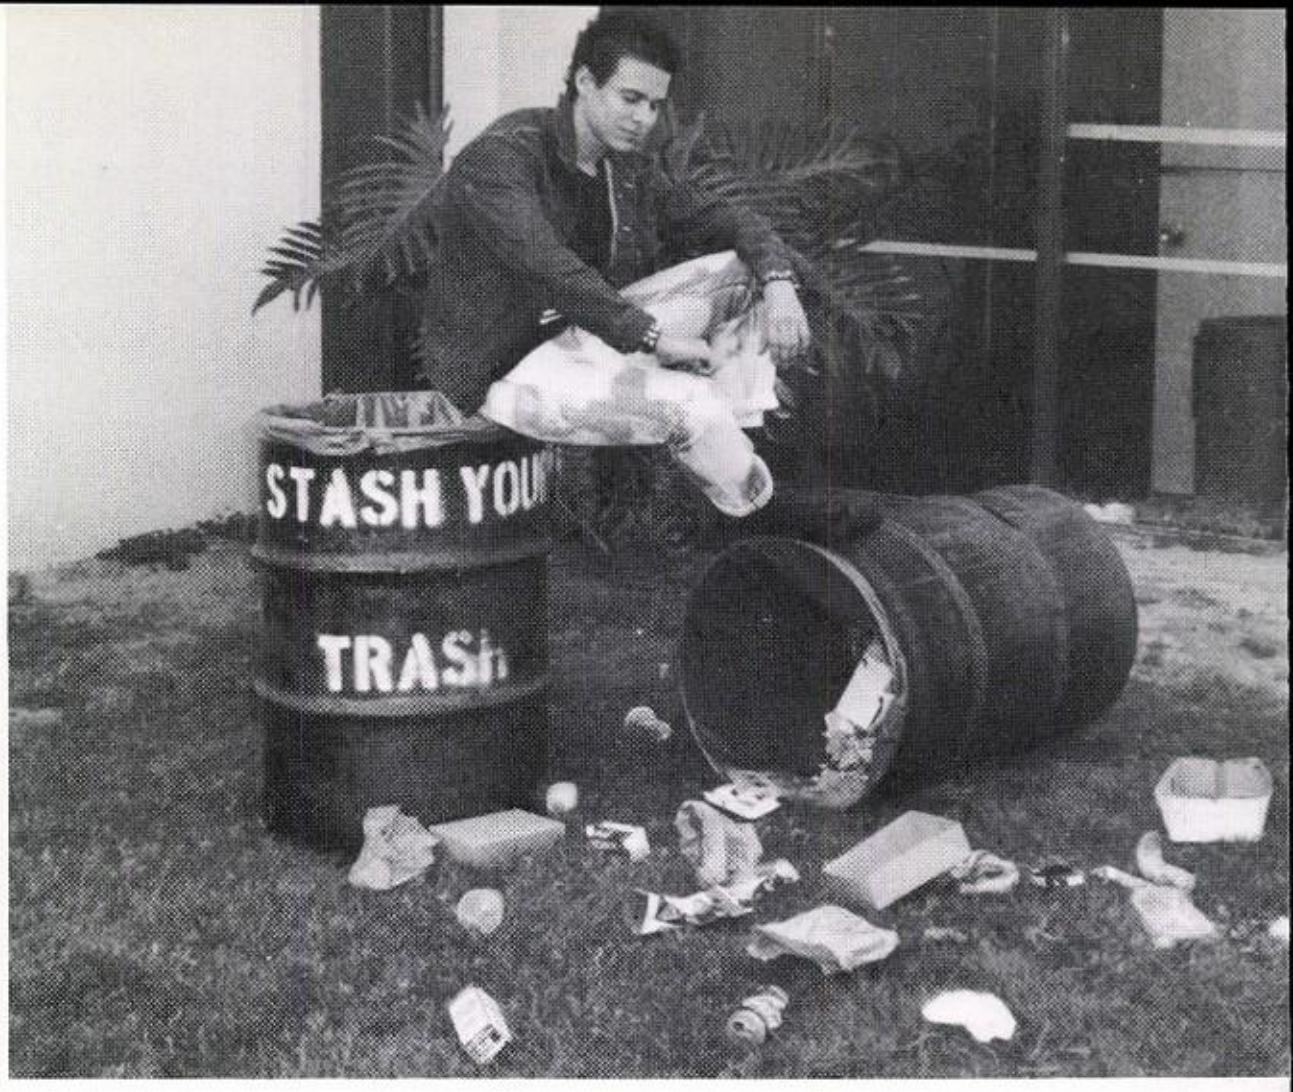
Dance Fever — Doing their best to get into the yearbook (and succeeding) these two pause at one of the sock hops.

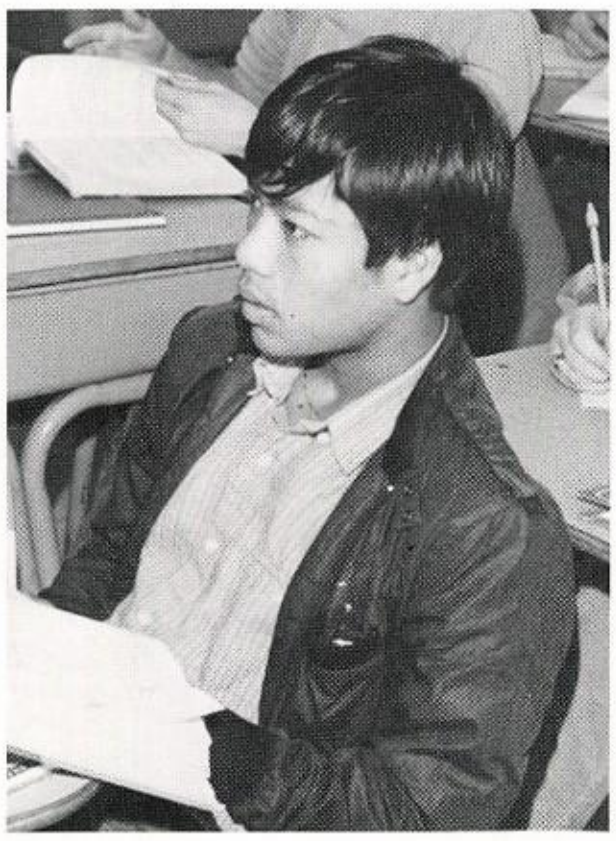
He don't give a hoot — John Cataldo is a firm non-believer in Woodsy Owl.

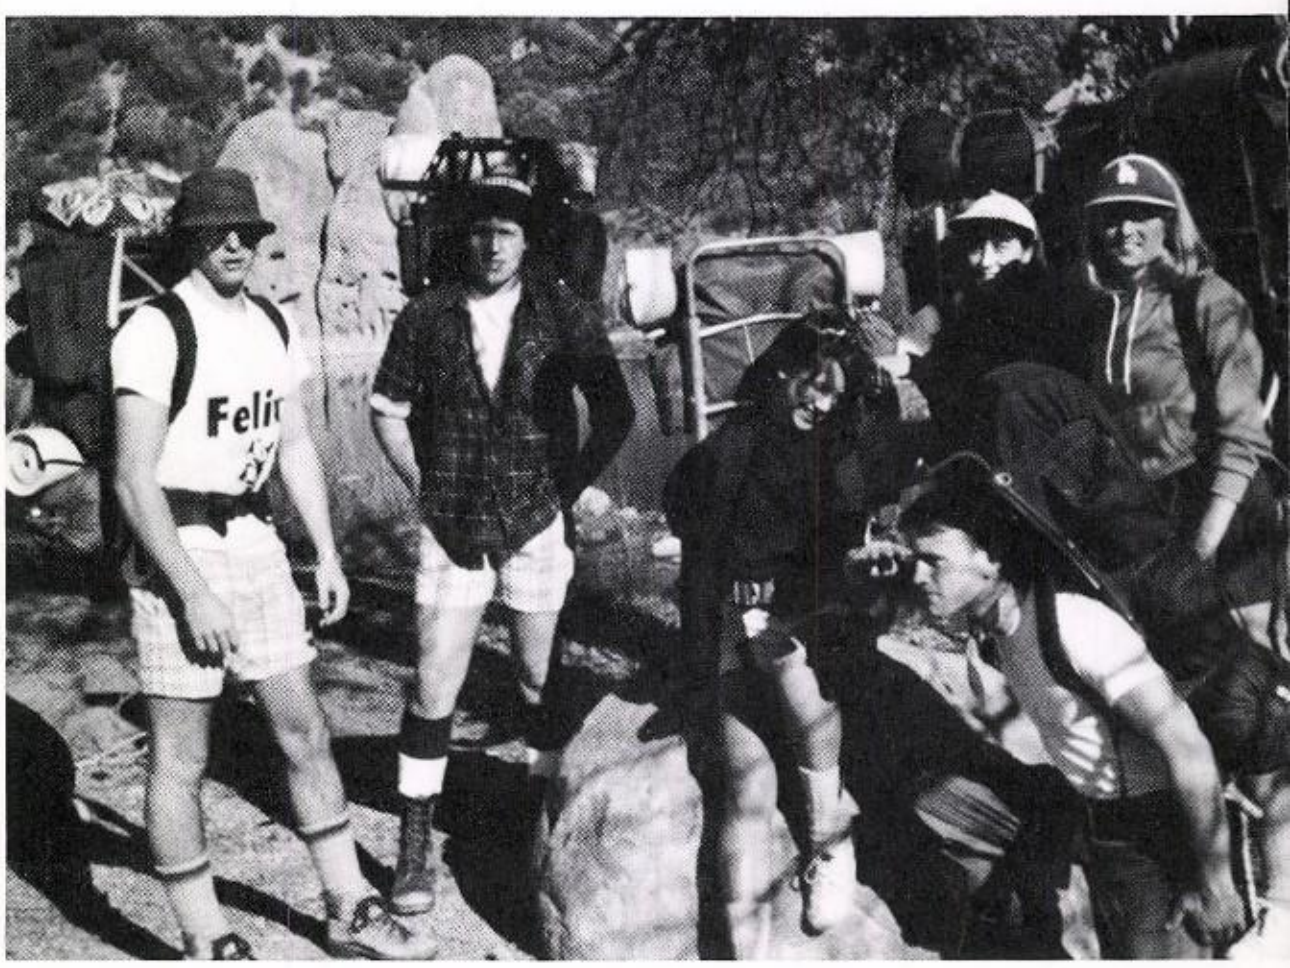
Sore Foot Brigade — Back-Packers; Mike Smith, Sean Noble, Cassandra Fleming, Kevin Kappen, Stephanie Held and Cherie Holle.

Sleeping with his eyes open — This student appears to be listening intently to Mrs. Howel.

God is our co-pilot — Debbie Walters plans on being an air traffic controller.







Burr is the word

With packs on their backs and the motto "change of plans" on their lips the burly backpacking club set out for excitement and adventure. Their first journey took place to the great outdoors of ***Los Padres National Park.*** After braving the near sub-zero temperatures of night they woke to a well prepared four course breakfast. They then set out on their afternoon hike across hill and dale into the unknown. When confronted with a hazardous stream, they leaped across, and from then on it was pure enjoyment. Looking at wild animals eye to eye was just one of the many exhilerating experiences. In addition they bathed in a stream of freshly melted snow and started their camp fire with old fashioned matches.

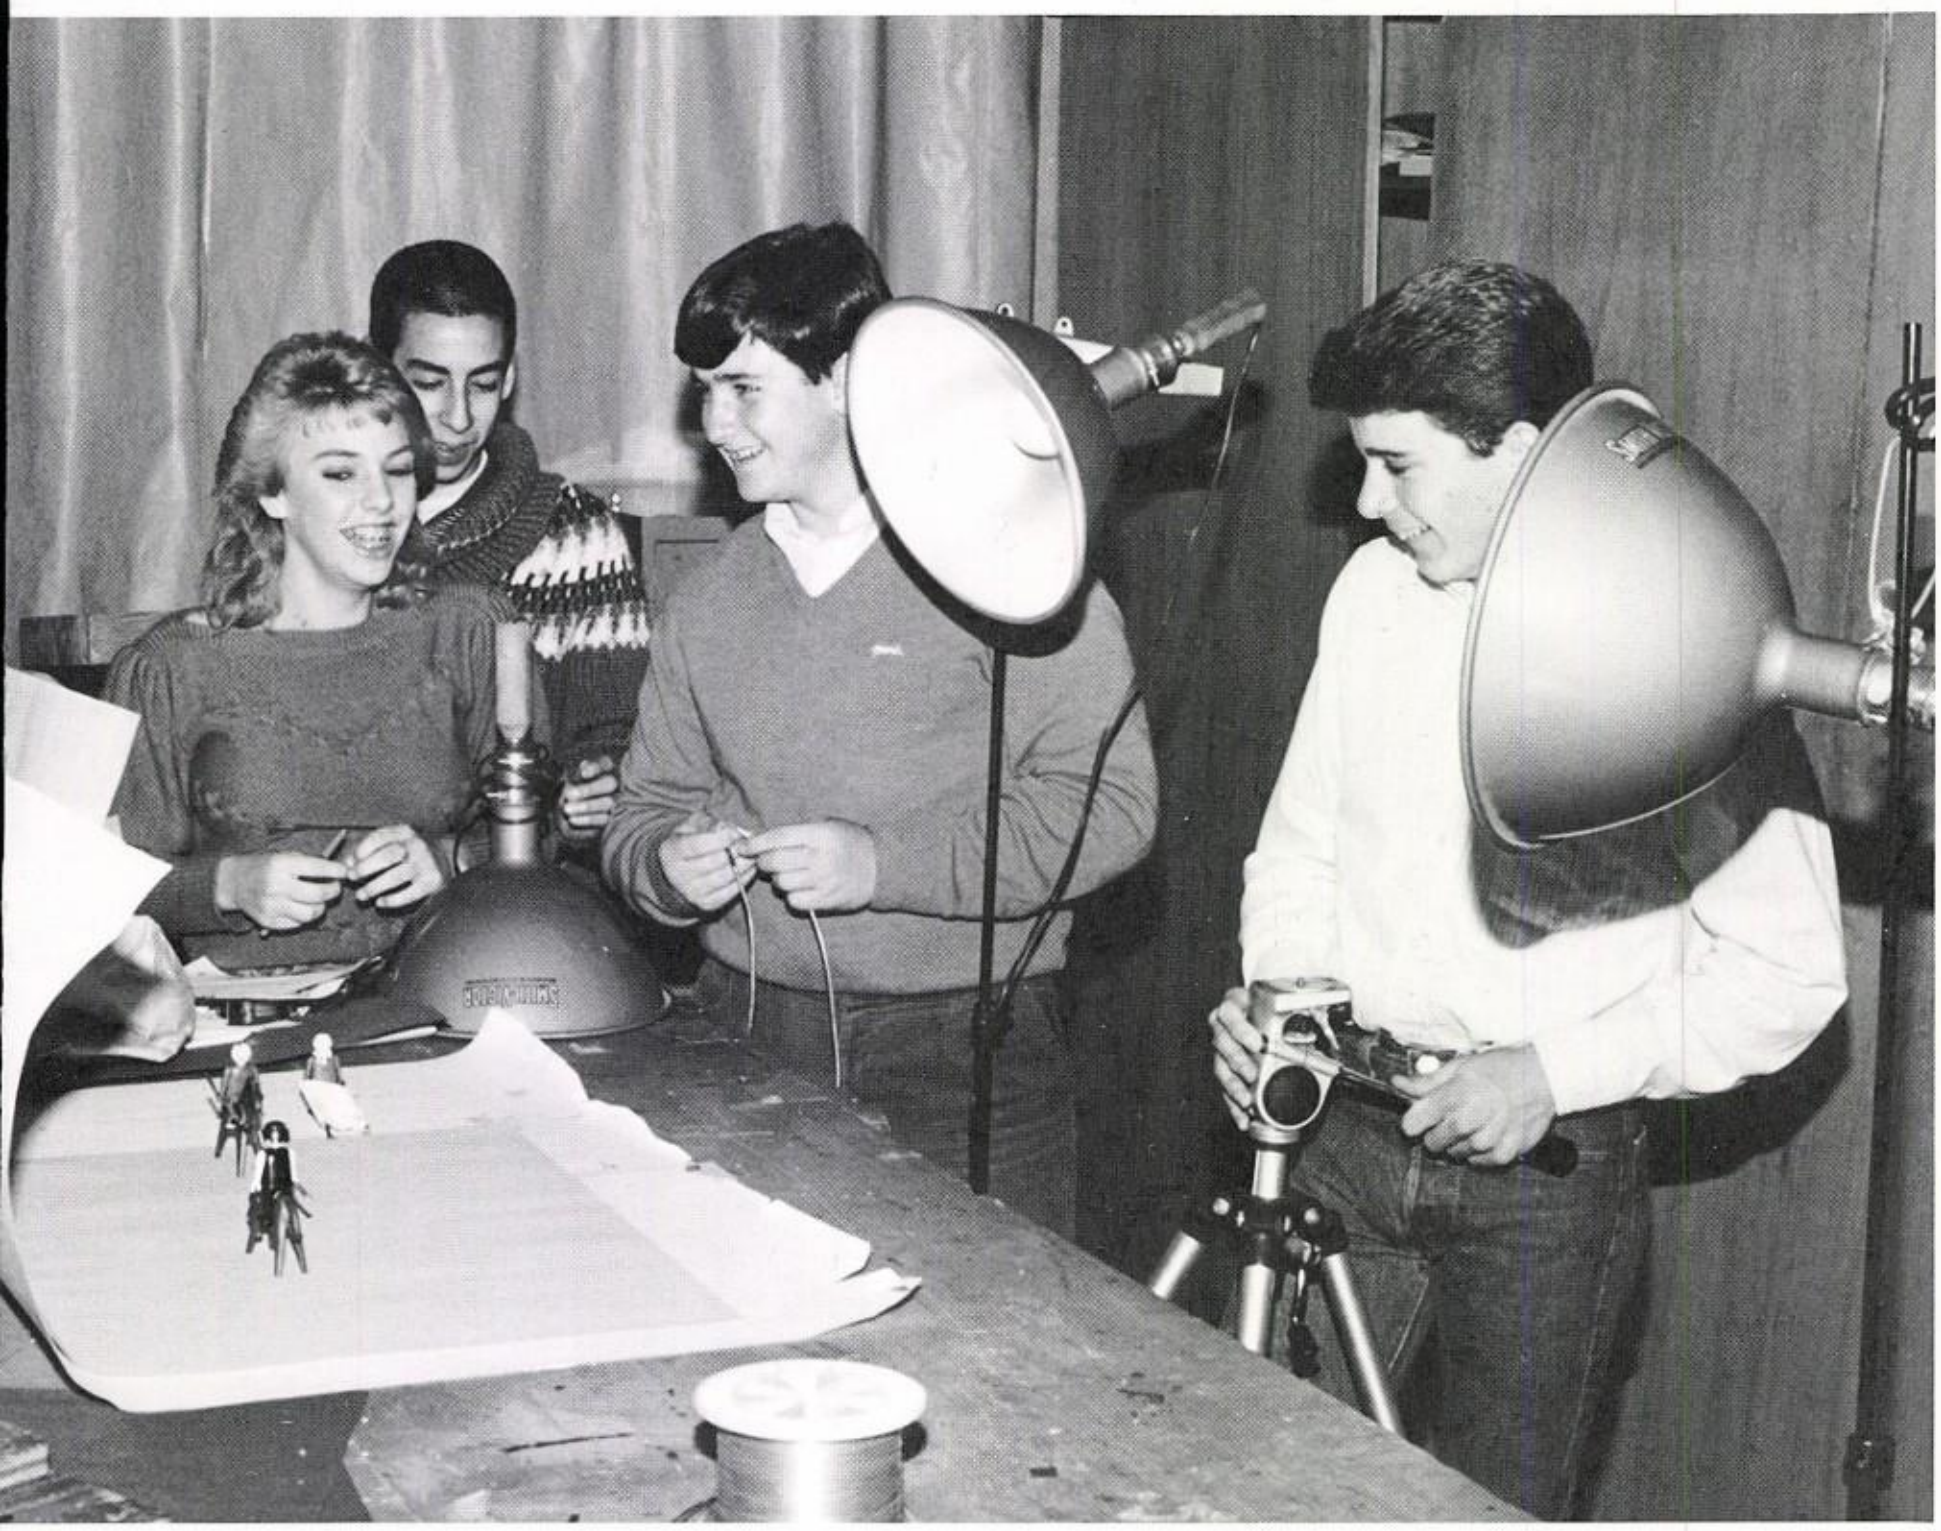
As the sun set on the horizon they turned for home eagerly anticipating the next time they would be able to enjoy the great wilderness that lies just a few hours away from civilization.

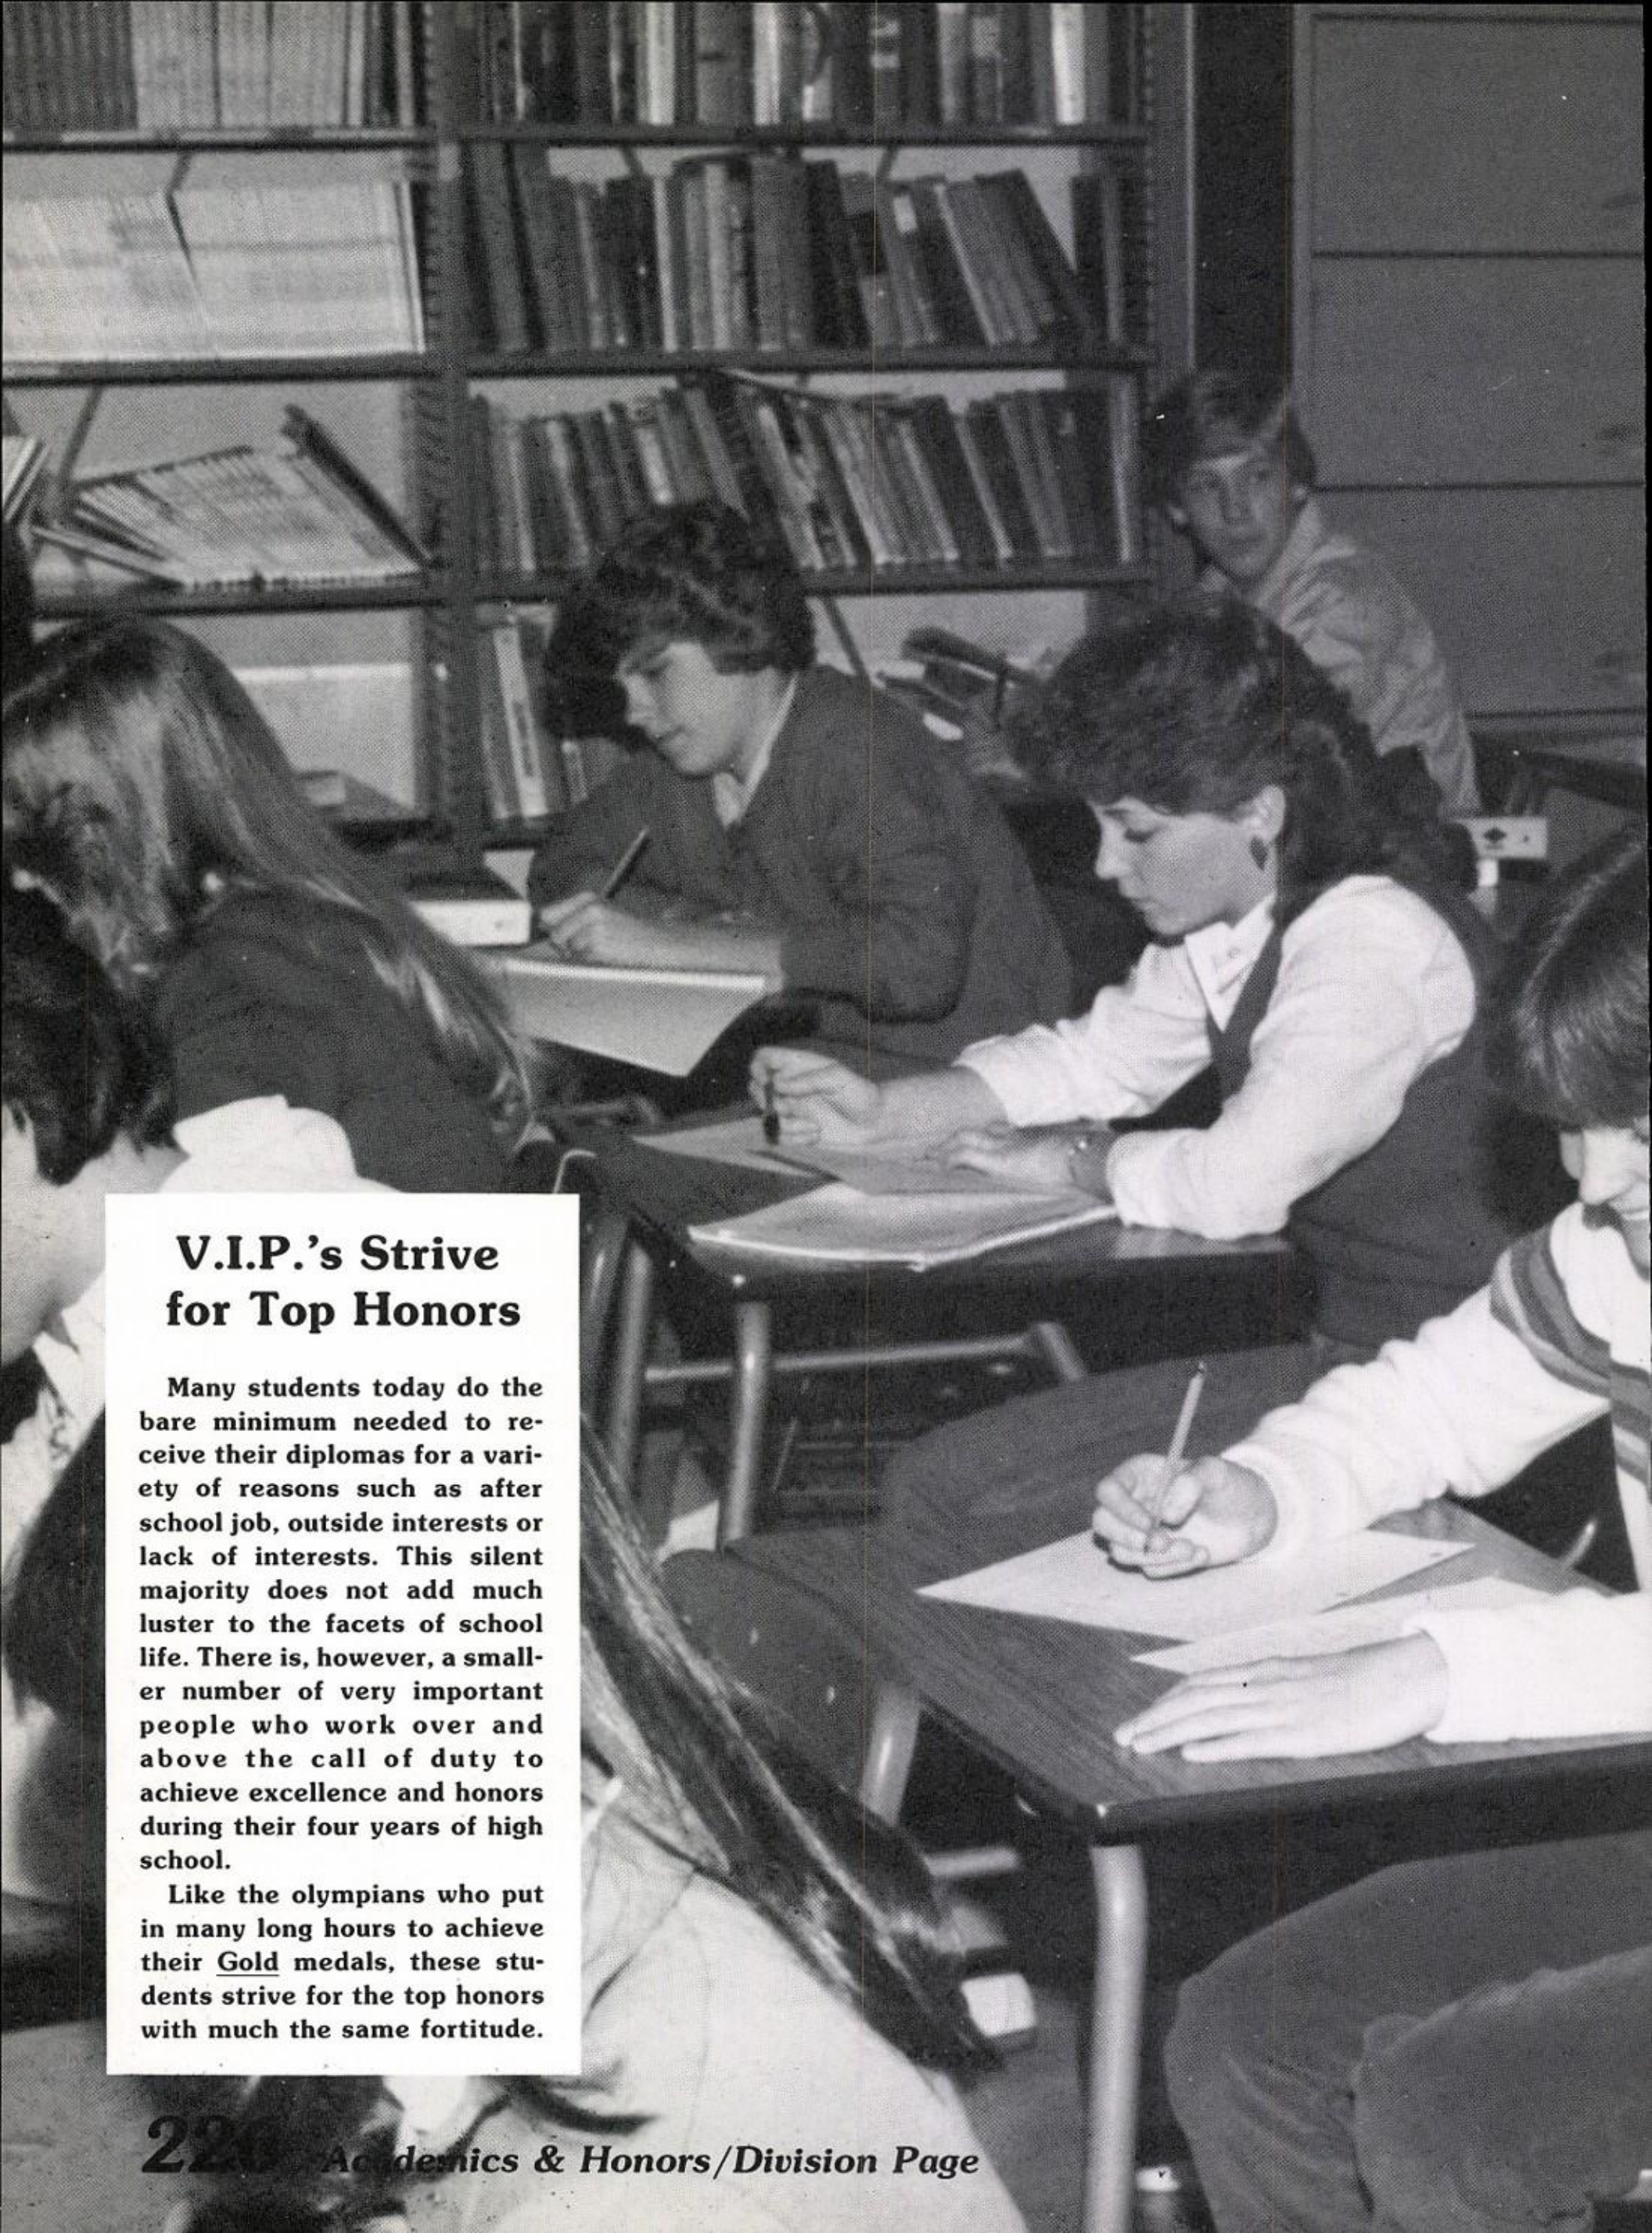
The club would like to cordially thank "Grizzly Adams" Bowman for his efforts and time.

Hi there! — These girls take time out for a picture.

Lights, Camera, Action! — These photography students finish up their animation before the bell rings.

Mad scientists at work — Michele Walsh and Shelley Hoffman plot to build a better monster.





V.I.P.'s Strive for Top Honors

Many students today do the bare minimum needed to receive their diplomas for a variety of reasons such as after school job, outside interests or lack of interests. This silent majority does not add much luster to the facets of school life. There is, however, a smaller number of very important people who work over and above the call of duty to achieve excellence and honors during their four years of high school.

Like the olympians who put in many long hours to achieve their Gold medals, these students strive for the top honors with much the same fortitude.

In the school year of 1983-84 there have been many changes, and the man running the show is principal Dr. Lee Eastwood. Some of the changes include seniors having to take five classes, the enforcing of lunch passes, and classifying students according to their credits instead of their grade level. When asked how he felt each change benefited the school here is what he replied. His feeling on seniors taking five classes is "it is a remedy for Senioritis, too many students are wasted academically." As far as enforcing lunch passes Dr. Eastwood feels it's for the students' own safety. When it comes to the change in students being classifed by their credits instead of their grade level the principal feels it is an early "eye opener" for the students and maybe it will reduce the number of senior drop outs.

His father, Charles Mashburn, was the first principal. He served from 1959-1962.

The yearbook staff took a survey of a few of the teachers. We asked them what changes had they noticed in the years they have taught here.

Mr. Gordon, a character at heart, said, "Nothing ever changes!"

Mrs. Erdman took this opportunity to give her gem of wisdom. "My, yes," she said, "the students have changed over the years. Now they remind me of ***Cadillacs*** on the outside and ***hot air*** balloons on the inside. As for me, I could use a change — of ***spark plugs.***

Ciatdel Staff — ***What was your pet peeve 25 years ago? What is it today?***

Barbara Dorman — Students who did not do their homework. Cheating!!

Jack Hedges — I feel that a school should exude pride and spirit. People should be aware of W.H.S. success . . . athletics, band, drama, academic decathlon, scholarships, teachers and students, letting their pride show to make us a better school.

George Galloway — Checking students regarding proper dress code. Standing extra duty posts. Today there is lack of a dress code.

Barbara Dorman — Some students are more involved in extracurricular activities, such as leadership, CROP, working and sports. To them, academics may not be of prime importance.

George Galloway — They are lacking in self discipline as far as studying is concerned.

Jack Hedges — The girls get prettier, the boys handsomer. Skirts have gone short to long about 4 times. It seems as though study habits have deteriorated a bit, maybe too much T.V.; or too many moms and dads both working.

Day after day papers have to be signed, phones have to be answered, and most of all, students and their parents have to be heard. There is a lot more to being a secretary than answering a phone and typing a letter. For instance, Elaine Vogel who is a secretary for Mr. Blankinship, does not only do her own everyday work, she also helps out in attendance, at the registrar, and takes care of some student/parent needs. If it weren't for the ladies in the front office, the students would have a hard time getting back into class after an absence, and it would take twice as long to get the information needed. These ladies are a vital part of the high school.

Superdupervisor Janet Whitenberg has double duties drill team and "In-House".

Hit Squad — Georgia Antonyshyn, Ruth Romao, Pearl Powers, prowl the school in search of trouble.

No Aspirin! — Nurse Kathy Schwable and Bertha Mallory are the local "Red Cross".

rd Wiz — Myrna Prince is good at processing words & tting them into crossword puzzles, among other things.

er wondered who publishes those fascinating monthly ws letters to the parents? Community liason, Kathy DeLalade deserves the credit.

pervision Secretary, Arlene Lilley takes time out to sport a ile.

Books are their business — Librarians, Estelle Billizer, Jean Cavaaugh, and Ethel Feld never run out of reading material.

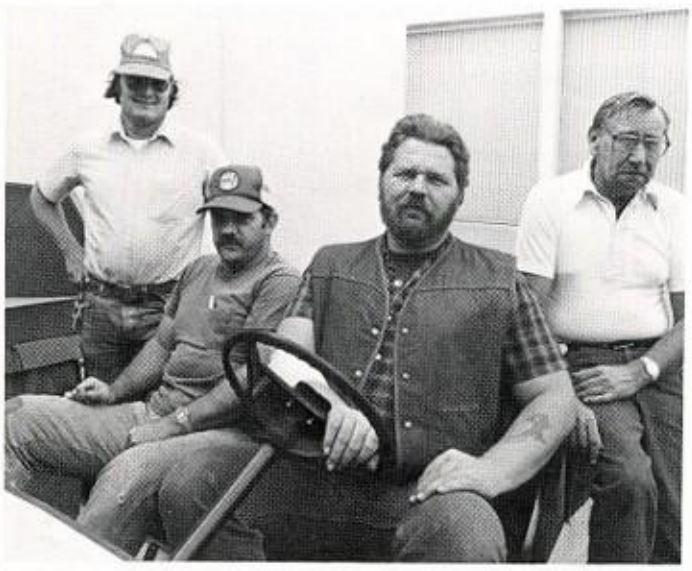
Guiding lights — Laura Waddell, Carole Adams, Barbara Smith, Billie Emerson, and Dorraine Backstrom are responsible for sorting out students' schedules during the year.

Galloping Gourmets — Janet Rnagel, Connie Templeton, Ila Pinch, Katherine Wright, and Vivian Hall keep the burritos warm and the milk cold.



Westminster racing team — Rick Clark, Chuck Goetz, John Klungreslter, and Bill Jones pose with their formula go cart.

May the Force be with you — Jeannette Masson, Polly Fitzel, Verni Moffett, Elaine Vegel, Eleanor Jacky, Jean Jiminez, and Stephanie Watton are the secretaries, the real force that keeps the school running.

Night Shift — Gary Waffiro, Ramiro Dimewtel, Saul Aguirre, Lloyd Chessmore, Mendoza, ***front row*** — Charlie Mendoza, Craig Pittman, and (not identified) make up that competent crew that gave the school that wonderful face-lift last summer.

A high school can sometimes be compared an assembly line, each person or group of peo has certain tasks to do to keep things runn smooth and efficiently. The assembly line c sists of custodians, keeping things clean, cafe ria workers to keep everyone fed, Guida teachs to guide the students, and various ot people. If just one part of the assembly line w missing, it would greatly effect the school. T teachers and students couldn't do without the

Career Center Quartet — Ethel Harris, Shirley Guffey, Linda Farrow, and Anji Clemens know the ins and outs of careers, but can they sing?

Dynamite Duo — Billie Rupprecht and Barbara Whitford keep the English and I.A. departments running like clock work.

Chapter 1 — formerly Title 1, formerly Title VII, boasts of some excellent personnel such as Trung Le, Jean Yost, Sets Miyada, Charlene Sorell, and counselor, Mark Carter.

Active People, Barbara Atwood, Atwood and secretary, Dianne (Lady Di) Boldt, are people who don't mind a little work, which is what they get in the Activities office.

Halloween brings out all kinds — House of Lords participates in the Halloween dress up.

In every class there are certain people who stick out among the crowd. This year it was decided to give these people the recognition they deserve. It had taken them four years to attain these certain characteristics and they should be commended for it. They are the ***Senior Best.***

The members in ***House of Lords*** play an important part in the running of the school. They are in charge of things such as; conserving energy, managing money, and planning trips for student enjoyment. Without these students, such extra curricular activities and improvements could not be made.

White and Miyada receive top honor

Many students have shown great achievements, but there are those chosen few who excell above and beyond the rest and show pride in becoming students of the month. Two students have proven their abilities and were therefore given the honor of students of the year. ***Ken White*** the first Student of the Year has been on the football team for three years. He is in CSF and an officer of the popular Spanish club. Spring of 83 he was chosen to attend the U.S. Coach Guard academy's project AIM in New London, Connecticut. He was minister of Education in House of Lords. With all this activity he still maintains a 3.85 with a rigorous college prep schedule. ***Pam Miyada*** was chosen as the second Student of the Year. She has maintained a 4.5 GPA while being involved in many activities. She was senior class vice president along with holding various other offices in TEPS, Latin Club and CSF.

She is the Sr. class V.P., TEPS/S Club V.P., CSF V.P. and she has been the president of the Latin Club for three years.

I would like to say that my high school years have been the best of my life. Everyone I've come in contact with has had a part in making me who I am today (some for better, some for worse). I love you all!

First, let me recognize Administration — who helped me to realize what Orwell was talking about. Thanks, also, to all my Advisors. Without them Backpacking, F.C.A., House of Lords and Spanish Club would not be possible. Next, I'd like to take off my hat to the 1983 Varsity Football Coaching Staff. I don't think I've ever had so much fun playing football. You did an excellent job in turning the program around and I wish you the best of luck in the future. Last, but not least, let me commend all of my teachers throughout my past four years.

May I say it has been an honor and privilege to have been Prime Minister of W.H.S. I hope I have executed my duties to everyone's expectations. Also, concerning the next administration — Good luck!

To all of my commrades that I've played football with I'd like to say that I consider you all my brothers and that what ever is mine is yours (to an extent) and if you ever need ***anything*** give Kap a call.

Finally, to all of my close friends, I must say that I feel indebted to God for having been blessed with such thoughtful and unique friends. The Cabinet and Swenson, Mark, Del, Ken, Sam, Mike, Jones, Roger, Wild Bill, Brother McKaye, James, Jim, Mike, Jim, Rick, Tim, (Kaminskii Brothers), McDonalLand Crew, (Real) Mutants, Michele (sis), all of the massagers, and everybody — Thanks to you all. You're all welcome to the shirt off my back. Call me ***anytime!!!*** I pray I'll never forget all of the good times!!!

Thanks Mom, Dad, Kris, Grandma and Lu and Mel. I hope I can learn to be as caring and loyal as you all are.

Well, anyway . . . I'll see everyone at Golden West. Vote for Ron (or else), Remember call me ***anytime*** for ***anything***. God Bless You All.

Sincerely,
Baron Kevin LeeVon Kappen I
Alias: Richie J.

To all my good friends,

You have made WHS a more enjoyable place, Spanish Club — great times with cabinet at Los Castillos and Swenson's. Never forget time at Knott's Del, Mike, and Kevin Pile up with cars on Lion. House of Lords fun at camp, everyone made it fun and exciting. Plotting to overthrow school. Had fun in futball while it lasted, best of all soph. year. Sunset League Champs. Who was involved in food fight. Richie Johnson and company. Fun times in bleachers during basketball 82-83 and 83-84. Teachers who made WHS ineresting, Mr. Green, Mr. Stone, Mr. Pacelli and most of all Mrs. Swenson. Like to thank certain people make years at WHS special. Kevin Von Kappen — innocent but really, Del Pickney — big guy, small car, dangerous duo. Mike Miller, Nerd of the Year, complains too much who knows. Ken Mount — no comment. Swenson, minor, Spanish and Italian blood, watch out Doc E and WHS. Rose, Tami, Jill, and Angela a special lady hope the best for you. Let's keep in touch. To class of 84 you are the greatest.

Remember always
Samuel Alfredo Cuellar
also known as Raul, The Gambler, and The Thief

To all my friends: We have had quite a few good times. Remember at the stop light, "Hi guys." Nerd of the Year in '82, "Spaz." I will never forget all the fun I had in Traffic and Safety with Jim and Kevin. Too many things to say about Del, but I will always rember, "Oh it's a secret. Tell us when she leaves." The fun at Knott's Berry Farm. At the beach with all my friends, "shark, shark." All the trips down to Swenson's and back. What fun we had in Spanish Club. It has been fun.

Thank You to all my teachers. I appreciate the time and the effort.

To the Soccer team: It was fun while it lasted. You guys made it fun.

To the H20 Polo team: I will never forget you guys. Life will not be half as fun without you guys. ***WATER POLO PLAYERS PUMP HARDER!!!***

I will always remember: Del, Ken, Sam, Paul, Nick, Jim, Kevin, Lewis, Brad, James, Jill, Susie, Donna, Elisa, Keith, Roger, Darrin, Jim, Pam, Tracy, Ken, Jeff, Matt, Scott, Joe, Tom, Tom, Eddie, Dave, Lisa, John. Thank You to all my friends.

I would like to give a special Thank You to Michele, Cheryl, Lynne, and Angela. Without all your kindness and understanding I would have never made it through school. All of you are very special to me.

Dear Mrs. Swenson and Mrs. Tanner, I don't know what to say. The two of you have helped me so much I cannot begin to Thank You enough. I love both of you dearly. I'll miss both of you tremendously.

Thanks to Mom and Dad for everything. I hope all goes for the best. Good Luck to Patrick. You still have one more Year to go. Love always and forever, Michael B. Miller

To my Homeroom 83-84: I really thought that no homeroom could ever compare with my 82-83 homeroom but you really matched their greatness. You were terrific and special. You joined every contest you could and did just fantastic. I still think we deserved to win the Halloween & Christmas door decoration contests — we were ***robbed.*** Again, I am so proud to have been your homeroom teacher. May you all have the very best always. I hope I have you again for homeroom next year. I shall remember you. The canned food drive was great also. Thank you for all your hard work. I love you. (Thanks Todd B. & Jennifer C. for counting so well).

LOVE, Mrs. Swenson

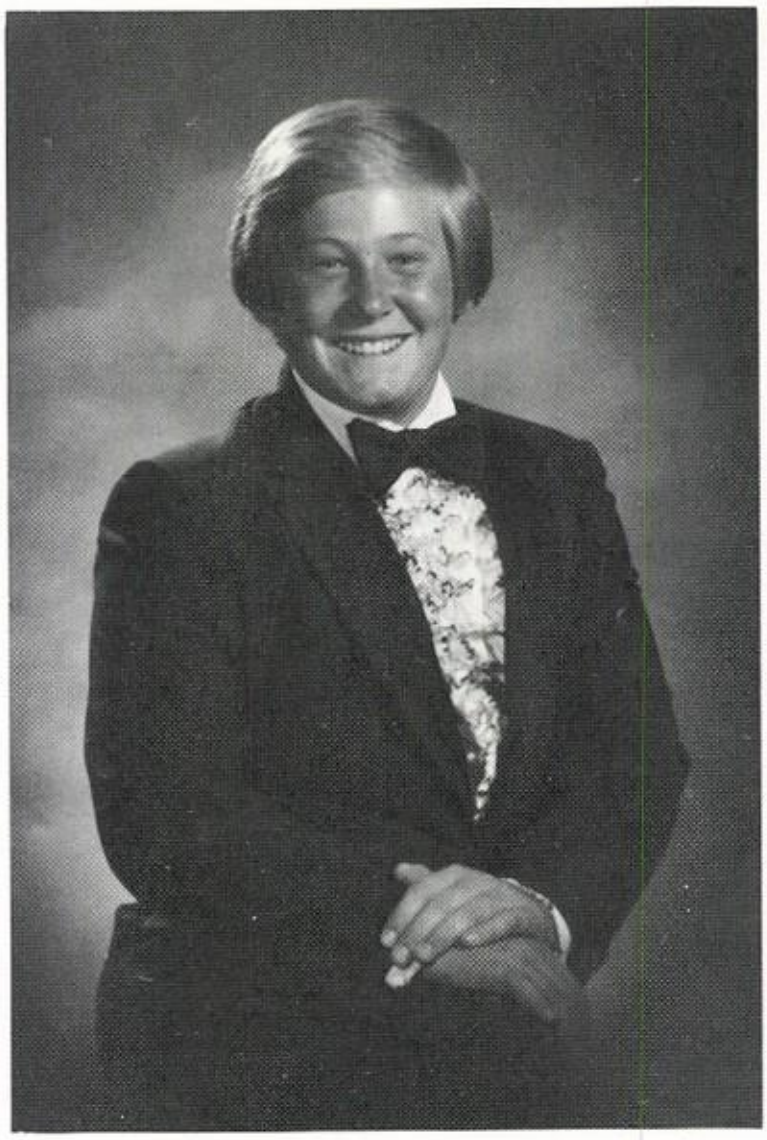
My Son

From the day you
were born
you were
so special
so smart
so sensitive
so good
It was so much fun
to watch you
As you grew
you became your
own person
with your own
ideas
and your own way
of doing things
It was so exciting
to watch you . . .
As you grew more
you became more independent
still special
still smart
still sensitive
still good
I am so proud
of everything about you
and I want you to know
that I love
everything about you

Many thanks to
Westminster High School
Staff and students.
Joseph & Linda Farace



"I'll lend you for a little time a child of mine," He said,
"For you to love the while he lives and mourn for when he's dead.

It may be six or seven years, or twenty-two or three,
But will you, till I call him back, take care of him for Me?

He'll bring his charms to gladden you, and should his stay be brief,
You'll have his memories as solace for your grief.

I cannot promise he will stay; since all from earth return,
But there are lessons taught down there I want this child to learn.

I've looked the wide world over in My search for teachers true
And from the throngs that crowd life's lanes I have selected you.

Now will you give him all your love, nor think the labor vain.
Nor hate Me when I come to call to take him back again?"

I fancied that I heard them say, "Dear Lord, Thy will be done!
For all the joy Thy child shall bring, the risk of grief we'll run.

We'll shelter him with tenderness, we'll love him while we may,
And for the happiness we've known, forever grateful stay;

But should the angels call him much sooner than we've planned,
We'll brave the bitter grief that comes and try to understand."

Autographs

Donna,

We've only been friends for a short time but I feel I know you better than anyone else. The only way I can describe this is that we are the best of friends. I think I know you as well as I know Matt, and that's pretty good considering I've known Matt for five years.

I really have to thank for all that you've done for me. You have really helped me understand myself better. I was really screwing up my whole life before you came along. I can say now I'm really glad I met you. You helped me turn my life around, and now I'm back on the right track again. You have been a real friend to me through it all. You are truly the sweetest person I have ever met. You really care about people.

As I told you, anytime you need a friend to talk to, you know where I am, I will always be there for you.

Love You Lots

Movin' On Means . . .

Throughout the year the students have shown much pride in the school and themselves. The year is at an end and we are now ready to move on to an endless summer and new beginnings. Underclass await the next school year while seniors look back on the many memories of friends and good times as they look forward to the future.

You are someone very special to me. I love your voice. Really makes me happy. Thinking of you sometimes gets me down. Because I know it'll pass you and wish you were around. You make living you an easy task You are yourself You don't wear a mask

Faithful Pride

Being a *Lion* was so much fun in
a time that wasn't too long, but as
we leave we take with us the feel-
ing of being strong. The knowl-
edge we've earned throughout the
years will soon be used in length.
We've stood tall and come this far
to show our mighty strength. We
leave now what we've all known
for the eighteen tears that past.
We've all gained in friendship;
trusts, and memories that last.
Growing up is hard to do but now
we should not hide. For now it's
time to leave the den and show our
faithful pride.

Golden Years

The lighting of a slender candle symbolizes the beginning of the best years a person can experience, how brightly the candle burns, or whether it remains lit or not depends upon the individual. For some the flame will falter grow dim and perhaps die out long before its time. For others, the candle will glow with a steady light from beginning to end, and for many it will grow even brighter with each new day. All too soon it seems the candle will have consumed itself and burned out, this revealing the end of our high school years and the beginning of our lives.
